## BEHAN TESTIFIES AGAINST DALTON

## INDICTED ON HAVENS' CHARGE

Alexander R. Baum Accused of Embezzling Peoples Water Company Bonds

Testimony Given by Oaklander Results in Warrant for Lawyer's Arrest

SAN FRANCISCO, June 30.—Charged with the embezzlement of thirty-nine one-thousand dollar bonds of the Peoples Water Company of Oakland, Alexander R. Baum, a prominent attorney of this city, was indicted by the grand jury this morning.

The accusation is made as the result of testimony given by F. C. Havens, president of the concern, and other witnesses last Tuesday night before the law body, under the direction of Assistant District Attorney Berry.

The transaction is a most peculiar one and Baum protests that he is innocent of any wrongdoing and that others are responsible for his present predicament.

## BORROWS ON BONDS.

In June, 1903, Baum, desiring to borrow money for the Peoples Water Company, negotiated with Baum, who, acting for a client, arranged three deals, paying over to Havens \$15,500 and taking as security for payment thirty-nine \$1,000 gold bonds of the Peoples Water Company. According to the testimony, Baum alleged that he was acting for W. W. Sweet, and delivered the bonds to him.

Recently, when the notes became due, payment was tendered, but, according to Baum, the bonds were not forthcoming and so far the corporation has been unable to get hold of them. They are said to be of a value of at least \$30,000, and thus the corporation would be out nearly \$15,000 on the transaction.

## ASSERTS INNOCENCE.

Baum, who negotiated the deal, but who asserted that he is the innocent party to the affair, has, however, been forced to bear the brunt of it, and following the testimony adduced before the grand jury today's true bill was returned.

A similar case in point, which, peculiar as it may seem, brought in the name of W. W. Sweet also, was that of John Lynch, who was convicted of the embezzlement of bonds of the Ocean Shore railway and sentenced to a term in prison for failing to produce them when they were demanded. He is still endeavoring to bring about his freedom.

A warrant for Baum's arrest was issued immediately after the filing of the indictment.

One Killed, 2 Fatally Injured in Joy Ride

Victims of Night Accident Found in Road; Companions Missing.

PITTSBURG, June 30.—One man, unidentified, was killed and Edward Ward and Charles Irwin of this city were fatally hurt in an automobile accident near Braddoe some time during the night. The dead man and the two unconscious men were found near the roadside.

The possible cause of the accident was the end of a "joy ride" of six persons. Three of the riders escaped injury and have not been found. The car left an East End club about 1:30 this morning and, according to the injured men, when running along the McKeepsport road skidded on an embankment. Ward and Irwin jumped and were crushed against a wall, while the car continued on and rolled over the embankment, dropping a hundred feet below. The dead man is supposed to be J. F. Trout of Wheeling, W. Va.

## WIFE SAYS SHE WAS BEATEN

Fruitvale Woman Makes Grave Charges Against Husband and Policeman

Fraught with alleged persecution on the part of a husband, involving the employment of special agents, and an attempt to wrest a so-called community interest in a homestead from the wife, is the story told by Mrs. Rosa Knapp, who is suing William Knapp, of 3101 Champion street, a manufacturer's agent and man-about-town, for divorce. That he has gone so far as to cause trouble for the people with whom she sought refuge after undergoing an alleged ordeal last Friday noon in attempting to remove certain of her effects from the home, is further claimed.

According to the story told by Mrs. Knapp today, the wrath of her husband has been turned against Mrs. M. C. Myers, 3105 Champion street, who telephoned to the Melrose police for assistance at the time she saw Mrs. Knapp being roughly handled by Miss Etelie Knapp, daughter of William Knapp by a former wife, and H. K. Reid, a special police officer in the employment of persons in that neighborhood.

Since Mrs. Knapp filed her suit for divorce in the Superior Court of this county May 29 last, she has not lived in her pretty family home on the corner of School and Champion streets, Fruitvale. Several weeks ago she took up her residence with Mrs. Myers, who had befriended her on numerous occasions after alleged attacks made by her husband.

The appointment of Dr. Glover was urged by friends of the late coroner, who died as the result of an automobile accident in Muir Woods, but Mayor McCarthy did not see fit to elevate the autopsy surgeon to the office.

## DR. TONER SUCCEEDS WALSH

Mayor McCarthy's Appointment of New Coroner Causes Resignations

SAN FRANCISCO, June 30.—Dr. J. M. Toner, one of the best-known physicians in the Mission district, who has already announced himself as candidate for coroner at the next election, was this morning appointed to that office by Mayor P. H. McCarthy to fill the vacancy caused by the death of Dr. William J. Walsh. As the result of this selection Chief Deputy Coroner Joseph Kelly, Autopsy Surgeon C. E. Glover and Miss Hannah Dhu, the matron, have sent in their resignations to the new appointee and expect to leave the office tomorrow.

Dr. Toner is connected with the Union Labor party and is a man of considerable influence politically. He almost triumphed over Dr. Walsh in the last campaign and has long been in favor with the mayor.

The appointment of Dr. Glover was urged by friends of the late coroner, who died as the result of an automobile accident in Muir Woods, but Mayor McCarthy did not see fit to elevate the autopsy surgeon to the office.

Counterfeiter Caught Here Waive Examination  
Understood the Pair Will Plead Guilty to the Charge.

SAN FRANCISCO, June 30.—Charles Bush and John Tilton, the counterfeiter captured in Oakland on Wednesday, waived examination before the United States commissioner today, and it is understood will plead guilty following their indictment by the grand jury.

loss of \$100,000. Ten stores and a number of dwelling houses were burned. The explosion that caused the fire took place in a small restaurant and flames were soon through the roof on to other buildings. Hundreds of volunteers formed a bucket brigade and passed water from the river, but every building between the restaurant and the river was destroyed.

Midnight will mark the going into effect of the new city charter of Oakland, and the new administration will be called to order by Mayor Frank K. Mott in the council chamber at 11 o'clock tomorrow morning for organization. Mayor Mott will deliver an address to his new council, following which the routine work of getting the machinery of the new charter under way will be undertaken.

The important work of classifying themselves by lot to the long and short terms, and of designating them-selves by ballot to the various departments, will then be undertaken by the commissioners. Two councilmen will serve for four years and two for two years, and the classification, under the terms of the charter, must be determined by lot.

Following this the council will elect its vice-president, who will be ex-officio acting mayor in the absence of the chief executive at any time.

## HEAD LIKE TACK? NO! AVERS WIFE

Margaret E. Victor Declares Husband Told Her Such Was Case.

Because her husband told her that he "preferred brunettes to blondes, and that she had a head like a tack and a foot so flat that she made a hole in the ground when she walked," as well as other ill-treatment, Margaret E. Victor filed suit for divorce late yesterday afternoon against John T. Victor, a brick mason. The couple were married in Napa, December 23, 1890, and have two children—Darrell, 13 years old, and Virgil Victor, 9 years old.

It was also averred in the complaint that defendant told plaintiff that she "was not worthy to be the bride of one." Maud Merrill, a lovely woman with whom he had been corresponding for some time, that he had lied and beaten her, called her names, and further, that he had refused her 50 cents one time when she wanted to take the children to Idora Park for an outing, saying that he "would see her in purgatory before he would give it to her."

That he was in the habit of going out of town for work when he could get it at home, and that he told her on one of these occasions he came near being married to Maud Merrill, is also claimed, whereupon plaintiff "fears that she will have a nervous breakdown if she lives longer with the defendant," and asks the court to award her separation, the two children and a reasonable amount of alimony.

John Allman has asked for a divorce from Ide Allman, claiming "that during the greater portion of the time the defendant has been disqualifed from attending to her duties as housewife and has been in the condition of a drunken stupor and mental incompetency, therefore, so as to inflict great mental anguish upon him, by reason of her conduct during such periods of drunkenness."

## SAFE CRACKERS' RIG FOUND IN ROAD

Alvarado Dynamiters Unhitch Horse and Wheel Buggy to One Side.

MELROSE, June 30.—The horse and buggy—which the Alvarado safecrackers stole Wednesday when they broke into the postoffice were found at Harrington avenue, north of the foothill boulevard, early this morning by Officer M. J. Smith of the Melrose police. The horse had been unhitched and the harness taken off. He was found grazing by the side of the road. The buggy had been wheeled end to the side of the boulevard and in it was found the harness.

## Sentenced to Short Term in Penitentiary

Former President of Carnegie Trust Company Must Serve Time.

NEW YORK, June 30.—J. B. Ketcham, former president of the Carnegie Trust Company, convicted of making a false report to the State banking department, was sentenced today to serve four and one-half months in the penitentiary by Justice Davis, in the criminal branch of the Supreme Court.

## DYNAMITE SUSPECT JAILED

Man Believed to Be David Caplan Is Under Arrest in London

District Attorney Fredericks to Go to England to Bring Prisoner Back

LOS ANGELES, June 30.—A man believed to be David Caplan, one of the alleged McNamara dynamite conspirators, is under arrest in London. Papers are being prepared for his extradition from England to this country. District Attorney John D. Fredericks is in Washington conferring with Secretary of State Knox regarding the case, and it is expected that he will join Detective William J. Burns, who went to London six weeks ago, and bring back the suspect.

These facts were confirmed today by officials of the District Attorney's office and by E. R. Mills, manager of Burns' agency in this city.

### PAPERS BEING PREPARED.

"Papers are being prepared today," said Mills. "Until then we cannot discuss the case. Burns, however, is in England."

Mills was asked if it was believed that Schmidt, the third man suspected of having set the bombs that destroyed the Times newspaper plant last October, also was in England.

"No," said Mills, "unless we are very much mistaken, Schmidt is somewhere in Scotland."

The man alleged to be Caplan was captured by Scotland Yard men in London. According to advices received here, the suspect was captured through the instrumentality of a brother who lives in the British capital.

The first information of the arrest of the supposed Caplan came from Secretary of State Knox to Governor Johnson at Sacramento. Knox is said to have received his information officially through the British embassy at Washington.

### CASE POSTPONED.

Mrs. Orth E. McManigal may not be compelled to appear in court Saturday to answer charges of contempt for having refused to answer questions before the grand jury. It was announced today that the prosecution would ask a postponement on account of the funeral of the wife of Assistant District Attorney W. J. Ford, which will be held tomorrow.

Mrs. McManigal is rapidly recovering from the effects of her nerve racking ordeal of last Tuesday when she fainted during an interview with her husband in an anteroom of the grand jury chamber.

### DECIDEDLY AVVERSE TO MAKING COMMENT UPON THE TRUST INDICTMENTS.

PARIS, June 30.—Frank J. Gould, who as president of the Old Dominion Iron and Nail Works is one of those indicted by the United States grand jury at New York for offenses against the Sherman anti-trust law, said today that he would make no comment concerning the indictment until he had received fuller and personal information from New York.

LONDON, June 30.—Judge Gary, chairman of the board of directors of the United States Steel Corporation, of which the American Steel and Wire Company is a subsidiary concern, declined today to discuss the federal indictments found against the latter company and other corporations and partnerships in the alleged wire pool. His only comment was:

"I know nothing about the action and therefore have nothing to say of it. All I can say is that I know no reason for the indictments against the companies."

The route is laid out for a loop service working both ways, starting at Oakdale, First and Broadway, Elmhurst, Mt. Eden, Alvarado, Newark, Centerville, Niles, Decoto, Hayward, San Leandro and First and Broadway, Elmhurst, San Leandro, Hayward, Decoto, Niles, Centerville, Newark, Alvarado, Mt. Eden, Elmhurst, First and Broadway.

This route will allow traffic between the town to be maintained at all times and promises to greatly assist in the up-building of this section.

## COURT APPROVES CONSENT DEGREES

S. F. Gas Co. and Consumers to Divide Equally Nearly a Million Dollars.

SAN FRANCISCO, June 30.—Consent decrees were approved today by United States Judge W. W. Morrow, which will result in the immediate and equal division of \$969,662 of impounded money between the San Francisco Gas and Electric Company and the consumers. During the past three years the company brought suit in the Federal Court to prevent the supervisors from enforcing a rate, alleged to be confiscatory. Pending the final determination of this suit the excess from the supervisor's rate and the rate fixed by the court was deposited with the court.

Lately the gas company agreed to withdraw the actions and to consent to the city's rates if the \$969,662 was divided equally between the company and its customers. This was agreed to and the case is now thrown out of court.

The committee having in charge the musical features of Oakland's monster Fourth of July celebration are particularly anxious that the choruses of school children to be heard at Lake Merritt should be a success. Owing to the fact that this is the vacation period in the schools it is often difficult to find sufficient number of the pupils, especially those of the high schools, together.

It is planned to have at least 500 in these choruses, and another big rehearsal is to be held tomorrow morning at 10 o'clock in the common assembly room of Chabot hall, at which place all the school children of the city, and especially those of the high school, are urged to be present to rehearse. This mass chorus will be one of the biggest features of the day, and the committee feels every child should feel the importance of taking part.

## NEW CITY CHARTER GOES IN EFFECT AT MIDNIGHT

**Mayor Mott to Call Meeting of the Commissioners Tomorrow to Oil Municipal Machinery**

(Continued From Page 1)

ments of the commissioners will then be undertaken.

Assignment to departments must be made by the councilmen within ten days, or by the mayor at the expiration of that time. Although Mayor Mott and the councilmen declare that there has been no meetings at which the various positions have been determined upon, it is known informally that the matter is entirely settled.

Barring any changes in the program the line-up will be as follows:

Department of Public Affairs—

Mayor Frank K. Mott.

Department of Revenue and Finance—John Forrest.

Department of Public Health and Safety—Fred C. Turner.

Department of Public Works—

Harry Anderson.

Department of Streets—William J. Bacous.

All these offices carry with them the patronage, and this is unequally divided among the department of city officials who are not included in the elective class for the most part subject to confirmation by the council, so that no commissioner has a free hand in his own department, his appointments being in a sense merely advisory.

### DISTRIBUTION OF PLUMS.

Under the new charter, distribution of the patronage is as follows:

City Council—City attorney and assistants in his office by his advice; city clerk and assistant city clerk and staff; purchasing agent; other offices creatable by the council and not assigned to departments.

Mayor—Five library directors, five playground directors, three park commissioners, three members of the civil service board (one of the most powerful bodies in the city), numerous subordinates in department of public affairs.

Commissioner of Finance and Revenue—City treasurer, assistants and subordinates in this department, the latter subject to civil service.

Commissioner of Public Health and Safety—Chief of police, captain of inspectors, captains, lieutenants, and sergeants; corporals and other officers; members of the police department, all, with the exception of the chief, subject to civil service; fire chief, assistant fire chief, battalion heads, etc., all with the exception of chief, subject to civil service; health officer, city chemist, market and food inspectors, plumbing inspector; superintendent and assistant superintendent of the electrical department; other superintendents.

Commissioner of Public Works—City engineer, assistant city engineer, large staff of subordinates formerly on fee system, but now to be placed on regular salary basis.

Commissioners of Streets—Superintendent and assistant superintendent of streets and large staff of assistants.

### OFFICIAL BRIDGE.

It is probable that appointments will not be made immediately by the new council. The charter continues in effect ordinances and resolutions not in conflict with its general plan until abrogated by resolution or ordinance of the new council. This clause will be used as bridge to continue the government until the new machinery has been placed in operation.

The work of tomorrow morning will be the starting of this machinery. All the offices above named and several others of minor import must be created by ordinance of the city council before they can be filled. The ordinances must name the office, prescribe the duties and fix the compensation. The ordinances will have to be published for ten days before they become effective, and until the office is created the appointments cannot be made officially.

City Attorney Ben F. Woolner, who will succeed himself in that office, it is thought, has been busily engaged with his staff in preparing a large batch of ordinances creating and describing the new positions described and provided by the new charter. An ordinance will have to be introduced for all the main offices, and these are now in readiness and will be placed before the council tomorrow morning.

### SALARIES ARE BLANK.

In the ordinance creating the new positions and abolishing the old, the designation of salaries for each place left blank excepting where the salaries are especially designated and provided for in the city charter. Those blanks will be filled by the commissioners and the ordinances immediately passed to print.

Edwin Meers, present city treasurer and tax collector, will be appointed to that post. Frank R. Thompson, city clerk, and E. F. Holland, deputy city clerk, will retain their positions. J. W. Nelson, present secretary of the board of public works and board of police and fire commissioners, will be named as secretary of the department of public health and safety. The existing board of health will be retained.

Few if any changes will be made in the city treasurer's office. Perry F. Brown, present assistant city engineer, will be made city engineer and superintendent of streets, succeeding City Engineer Turner. Walter G. Howe will be retained as assistant superintendent of streets. City Assessor Gross has made no announcement of changes in his office.

### BUT FEW CHANGES.

The fire department reorganization on a partly full paid basis has been effected, to be operative July 1. The park, playground and library boards will not be materially changed. Geo. R. Babcock will be retained as superintendent of the municipal electrical fire alarm and police signal service. The organization of the civil service commission has not been completed.

## ABOUT AUGUST 1 IS MOVING DAY

Chamber of Commerce Arranging for Occupancy of Its Own Building.

Arrangements are being completed by which the Chamber of Commerce will remove to its new quarters at Thirteenth and Harrison streets about the first of August. The building at that place is being put in condition and will be ready for occupancy as soon as possible. No great change will be made in the building, however, for the members hope that their occupancy will be only temporary, and that within two or three years they will have a new building especially constructed for the chamber's use.

Secretary A. A. Denison is at present actively engaged in preparing matter for an advertising brochure which includes three magazine articles on such subjects as facilities for motorizing about Oakland, the city's educational advantages and its commercial enterprises.

There also are numerous requests from people over the country for lantern slides to be used for boasting purposes.

### Grocer Killed While Trying to Save Dog

Wealthy New York Man Mortally Injured by Train; Pet Cat Nine Unharmed.

HASTINGS-ON-HUDSON, N. Y., June 30.—Michael C. Cloway, a wealthy retired wholesale grocer, stepped in the path of an express train at Mount Hope to save a pet terrier from death, was struck by the engine and mortally injured. He died an hour afterward of a fractured skull. The terrier was unharmed.

### CHURCH TO HOLD TWO CONFERENCES

BERKELEY, June 30.—Following a proposal discussed at last year's meeting, the State Epworth League conference, in session at the Epworth Methodist church, South, today decided to divide the conference into northern and southern sections. This was in accordance with the wishes of Southern California members who objected to the inconvenience of attending sessions so far from the south.

### MEET IN MORNING.

The new council will meet in the mornings, every day except Saturday and Sunday, and will keep regular office hours prior to the council meetings.

The new councilmen will be required to devote all their time to the service of the city, and will be given offices in the old city hall and city hall annex.

Commissioner Turner will have his office in the old city hall, as will Mayor Mott.

It is probable that Secretary J. W. Nelson of the board of works will be Turner's chief assistant as secretary of that office.

The other commissioners will be housed in the city hall annex, 1353 Broadway, adjoining the offices of their various departments.

ReURNING of the city council chambers three months ago, the commissioners were called upon to meet the new conditions, as the old council with eleven members and large lobbies always in attendance had been done away with.

The method of handling business at the new commission council meetings will dispense with lengthy discussions and petitions and protestations from the lobby.

Petitioners and protestants will be asked to file their complaints and wishes, and the matter will then be deliberated upon calmly by the council.

## Roof Collapses, Killing 10 And Injuring Seven More

BUFFALO, June 30.—Ten workmen were crushed to death and seven others were seriously injured today in the collapse of the roof and other portions of the Buffalo water department's new pumping station. The dead were buried in a pit where they had been working beneath hundreds of tons of steel, brick and mortar.

Most of the injured were at work on the roof, which was 300 feet long and 100 feet wide. About 200 feet of this suddenly fell in from some cause not yet determined. One of the injured died in an ambulance and two died at hospitals, making with those supposed to have been killed in the wreckage, a total of ten dead.

## Death Near for Girl Who Has Slept Eleven Weeks

VANDALIA, Ill., June 30.—Physicians attending Miss Hazel Schmidt, who has been sleeping almost continuously for eleven weeks, believe that she is dying. Early today it appeared for a time that she had stopped breathing. Her extremities became rigid and cold and her vitality waned. Later she responded to restoratives.

**A Treatment  
for  
Sick Headache**

Few diseases which do not threaten the life of the patient cause more suffering, more unhappiness in the family, more disturbance to the home life, than sick headache. The disorder is therefore worthy of the most careful study and attention. Many cases can be cured. Some may be incurable but these can be alleviated and the attacks made less frequent, an improvement well worth the effort.

Anything which tends to lower the "tone" of the body operates to bring on an attack and when the system is "toned up" the attacks become less frequent or disappear altogether. Thus indiscretions of diet will produce an attack as will a sudden shock, grief or other mental disturbance. After a vacation spent in the open air, or when the general health is especially good, there is freedom from attack. These facts led to the so-called tonic treatment for sick headache and for years Dr. Williams' Pink Pills for Pale People have been used with good results in numberless cases.

Mrs. Katherine Ruperd, of No. 1270 Sunset Boulevard, Los Angeles, Cal., says: "I suffered with sick headaches for years. When they began they would occur about every three months. Then they became more frequent and for years I had them every two weeks. While they lasted I was often confined to bed. The pain was mostly in the back of my head and lasted from two to five days. During the attacks I would be very dizzy and it seemed as though I was going blind. I was treated by doctors for many years but when I gave up taking their medicine I would soon be as badly off as ever. I decided to try Dr. Williams' Pink Pills as I had seen them recommended for cases similar to mine. The pills helped me very soon and, as they were the only medicine that left no bad effects, I kept on with them. I haven't had a headache in I don't know how long and I feel certain that I am entirely cured."

A new laxative, PINKLETS, designed to be used in connection with Dr. Williams' Pink Pills, affords a perfect combination treatment. These little laxative pills slightly stimulate the stomach and bowels and act on the liver. They are mild, sugar-coated, entirely vegetable, do not gripe and have no habit-creating tendency. A sample will be sent free on request together with our pamphlet on the treatment of sick headache.

Dr. Williams' Pink Pills for Pale People are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box, size one, 5250 by the Dr. Williams' Medicine Co., Schenectady, N.Y. The genuine pills are sold only in packages bearing the well-known trade-mark as shown here.

## POLYGAMY A THING OF PAST, SAYS SMITH

Mormon President Supports Wives, But Does Not Live With Them.

### ONE SPOUSE ENOUGH NOW, HE DECLARES

High Cost of Living Demands Avoidance of Plural Marriages.

WASHINGTON, June 30.—Polygamy no longer is practiced by Mormons and the man who is caught taking a plural wife is promptly excommunicated. So says Joseph Smith, venerable president of the Mormon church, in an interview in the Post today.

President Smith said that he still supports, but does not live with, the wives he married prior to the decision of the United States Supreme Court that polygamy was unlawful and before the church issued its famous manifesto forbidding plural marriages. Since his elevation to the presidency, his efforts, he said, had been directed toward inducing his followers to practice monogamy.

Asked if he thought it best for a man to have but one wife, the husband of five wives and the father of forty-three children replied:

#### HIGH COST OF LIVING.

"In these days of high cost of living there is no doubt that the average man is much better off with one wife. If a man cannot support one wife decently, it would obviously be impossible for him to support more. The women of today all demand that they be dressed and fed and housed as well as possible, and the man with an average income would be in terrible straits if he had several wives on his hands, all crying for the latest thing in hats and gowns."

President Smith, who came to Washington to appear before the "sugar committee" of the House, said he expected to leave the city today.

## MAN IS BRANDED LORD AND MASTER

Springfield Judge Lays Down Rules to Govern All Households.

SPRINGFIELD, Mass., June 30.—These precepts for the guidance of wives and husbands in cases of difference over household economics were laid down by Judge Charles L. Long on the separation cases brought by Mrs. Edith Marsh against Henry D. Marsh, assistant treasurer of the Five-Cent Savings Bank.

"The husband is absolute lord and master of the exchequer.

"He is entitled to his meals at any hour he wants them.

"He may select such food as he chooses. If he wants one food and his wife another, the husband's decision goes.

"A servant girl to whom the husband objects must be discharged.

"Finally, man who pays the bills and not woman is boss."

Judge Long advised the Marshes to patch up their differences. Marsh left the courtroom wreathed in smiles. Mrs. Marsh did not endorse the court's opinions, and said so.

## CRAVING FOR LOVE CAUSES DOWNFALL

Reformer Declares Hunger Not Only Whip Driving Woman Off Path.

SAGAMORE BEACH, Mass., June 30.—White hunger is often the immediate cause of woman's downfall, the fallen woman being usually induced to lead astray by the natural woman's craving for sympathy and for some one to love, declared Mrs. Jessie R. Hedder, superintendent of the Massachusetts Reformatory for Women, at the Sagamore Beach Sociological Conference which is now in session here.

Sex hygiene holds an important place on the program and President G. Stanley Hall of Clark University, Worcester, called it a scandal that young people should grow up in ignorance of the subject. Play and plenty of wholesome excitement he recommended for children during the adolescent period.

## SOCIETY WOMAN IS HURLED OUT OF AUTO

MENLO PARK, June 30.—Mrs. McDonald Spencer, daughter of Charles Joselyn, capitalist, living at Woodside, her little daughter and the small son of Thomas Breeze, narrowly escaped death at Fair Oaks when the auto she was driving collided with a machine driven by Dr. L. E. Phillips, a Palo Alto physician. The machines hit with a terrific crash, throwing Mrs. Spencer and the children out of the car. Dr. Phillips, who was hurt, rushed to their assistance, but they escaped with a bad shaking up and a few minor bruises. Both machines were badly damaged.

## TROUBLE THREATENED OVER JUAREZ SHAKEUP

EL PASO, Tex., June 30.—Serious trouble is still threatened in Juarez as the result of the shake-up in the customs department. Two protests, one to Francisco I. Madero Jr. and one to President de la Barra against the removal of the men now in office have been sent.

Insurrecto sympathizers say they will take up arms if the removals are made Saturday as ordered and the feeling in Juarez continues intense.

## JULY CLEARANCE SALE

As in former years this sales event will be largely devoted to a clear-away in all departments of everything that has lingered—that is in odd lots—that will not be reordered—that is soiled or slightly mussed with handling. Then, too, there will be lots of new goods at special prices. Look for vital sacrificing in every section; a radical room-making for fall stocks.

CAPWELL July sales have a well established reputation—but the present event will exceed all past efforts in magnitude and pricing. MAGNITUDE, because of a backward season which leaves us with more summer goods than ever before at this time; PRICING, because the greater quantity requires more ruthless slaughter to insure absolute clearance.

BE HERE EARLY while a wide choice is possible.

A FEW HINTS of what is in store for you, selected for your Fourth of July needs, are given below; but if what you want is not mentioned here, equally good bargains are to be found in the other departments.

## ALLEGED BRIBE MONEY IS FLASHED IN COURTROOM

### District Attorney Gives Clear Outline of Accusation Against Assessor

(Continued From Page 1)

tendance while the tales were being told, party, who referred to an annex of the district attorney's office.

#### POOR VENTILATION.

Judge Brown said that one of the bailiffs had informed him that some of the jurors complained of the lack of ventilation in the court and several of the jurors asserted that such was the case.

The court said he did not see how the ventilation could be improved save by moving to the court room of department No. 2. He then stated that the door of an adjoining room would be left open and that an electric fan would later be employed to keep the air in motion.

#### ASSESSMENT INCREASED.

The district attorney developed this statement at some length and continued:

"Dalton again informed Behan in this conversation that the assessment on all property in Alameda county would be increased and finally asked Behan if he was the tax agent of the company. Behan informed him that there was no tax agent; that he and Lawrence, who is also in the employ of the Spring Valley Water Company, attended to such matters. He then asked who was in control of the Spring Valley Water Company, and when informed that Mr. Bourn was in control, he asked what kind of a man Bourn was and wanted to know if Behan reported directly to him. Behan informed him that he neither reported to Mr. Bourn nor to Vice-President Eastman. The defendant then asked him if he was a tax agent.

"Defendant then said to Behan: 'What will the company do for me if I cut the assessment?' Behan asked him: 'What do you mean?' Dalton said: 'Well, what can you do for me?' Behan said: 'Well, I don't know, Dalton, what we can do for you other than to help you in any fair way at election time.' Dalton then said: 'I don't know whether I care to run again; I am sick of this damn business, and the dirty fight that is being made against me by my enemies. They tried hard to get me last year in the frame-up with this fellow Blackburn. Behan, I am talking to you as I never talked to any man before, but I am sure as hell over this whole business, and the rotten way in which I have been treated, and I mean to get even. A cut of two or three millions means a saving to me.'

"The district attorney directed the attention of the jurors to the fact that when Dalton had reached the Broadway entrance to the restaurant he hesitated and looked back up the street but did not enter by way of the front door. Instead, going easterly on Seventh street and, instead of using the patron's entrance on the lower street, entered the place through the kitchen door.

The opening purpose of the district attorney in thus directing the attention of the jury to the matter was to show the probable purpose of the defendant to attract as little attention as possible.

#### SMILES WHEN MONEY IS SHOWN.

The other incident which caused the craning of necks was when Dalton asked Hynes to produce the \$5000 which, it is said, was found in Dalton's pocket by Detective Hodges.

Dalton's face assumed a variety of expressions during the delivery of Donahue's speech. At times there was on it a smile as if the stated facts were of an entertaining character. This expression was there in a pronounced manner when Dalton had, plotted the \$5000 in gold notes which had figured in the alleged transaction between Eastman and Dalton. The package of money was not too large to be accommodated in an ordinary large business envelope.

At times the defendant tilted back his chair, at others he threw his right arm over the high back of the same and interlaced the fingers of both hands in front.

There were times, too, when he leaned forward and rested both hands on the chair in front of him and these were times when his features showed intense engrossment in the statement of important details in the alleged transaction between himself and the officers of the Spring Valley Water Company.

H. M. Dalton, the father, and Frank N. Dalton, the brother of the defendant, occupied their usual seats inside the bar but at a considerable distance from the accused.

At the opening of the case this morning, Attorney Fairall, for the defendant, moved that all the witnesses in the case be excluded from the court.

Assistant District Attorney Hynes objected on the ground that the order would exclude District Attorney Donahue, who would take the stand in behalf of the prosecution, and Detective Hodges, who was needed by the prosecution for the conduct of the case.

Fairall said he did not wish to have Donahue and Hodges included in his motion. With this understanding the court issued the order of exclusion.

It was thought there would be an immediate rush of witnesses toward the hallway, but the only witness seemingly on hand was John E. Behan, secretary and assistant manager of the Spring Valley Water Com-

pany, who, referred to an annex of the district attorney's office.

of \$45,000 even if the tax rate is only one fifty."

#### MESSAGE TO LAWRENCE.

"We will prove to you that on the 2d day of March, 1911, and before this telephone to Mr. Behan, the defendant telephoned to Mr. Lawrence, who is in the employ of the Spring Valley, and who resides at Millbrae in San Mateo county, asking Mr. Lawrence to call upon him.

"Mr. Eastman then said to Behan: 'What will the company do for me if I cut the assessment?' Behan asked him: 'What do you mean?' Dalton said: 'Well, what can you do for me?' Behan said: 'Well, I don't know, Dalton, what we can do for you other than to help you in any fair way at election time.' Dalton then said: 'I don't know whether I care to run again; I am sick of this damn business, and the dirty fight that is being made against me by my enemies. They tried hard to get me last year in the frame-up with this fellow Blackburn. Behan, I am talking to you as I never talked to any man before, but I am sure as hell over this whole business, and the rotten way in which I have been treated, and I mean to get even. A cut of two or three millions means a saving to me.'

"After some silence Behan said: 'What do you want the company to do, Dalton?' and Dalton replied: 'I want half what I save them.' Behan then said: 'This is something I had not thought of, nor have my people, and after some further conversation about the assessment Dalton stated: 'I don't make any difference, Behan, whether we make a cut of half a million or two and a half millions. The effect will be the same if a half is raised.' You can take this up with your people, provided it does not have to come up before a board of directors. If it does, we had better let the matter drop.'

"Dalton then figured that with the raise that he contemplated making and the cut of two and a half millions that the Spring Valley would save in taxes \$50,000 per year, and asked Behan to take the matter up with his people, but regard everything as confidential.

"Behan then left the office and reported immediately what Dalton had said to Vice-President Eastman of the Spring Valley Water Company.

#### REFERRED TO ATTORNEY.

"On the 15th day of April, 1911, this matter came to the attention of the district attorney of the county of Alameda. On the 21st day of April the defendant, Dalton, called Mr. Behan on the telephone. Mr. Behan was not in his office, but upon the 22d of April, in response to this call, Mr. Behan had a conversation with Mr. Dalton over the telephone and stated he had no objection to the middle of the following week.

"We will prove to you that Dalton called Mr. Behan up on the telephone upon several occasions between the last date mentioned and May 1st; that upon May 1, Mr. Behan had a conversation with Mr. Dalton over the telephone and an appointment was made for the next day, May 2, 1911.

"We will prove to you that upon the 2d day of May, 1911, Mr. Behan again met Mr. Dalton in the assessor's office of the county, and he informed Mr. Dalton that Mr. Bourn, the president of the Spring Valley Water Company, was not in the city; that he had left for Europe and that in his absence Mr. Eastman was in control of the affairs of the corporation, and, anyhow, while Mr. Bourn was president in control that Mr. Eastman was an old and experienced lawyer.

"We will prove to you that this was the first conversation that the defendant had with Mr. Behan at all during the year 1911.

# CAMPAIGN IS ON FOR GOOD ROADS

Meeting at Walnut Creek First Step Toward Making Improvements.

WALNUT CREEK, June 30.—A good road campaign which provides for the voting of a \$2,000,000 bond issue by Sacramento county, the spending of an even \$1,000,000 in improving the levee roads and building bridges in the Island district was inaugurated here yesterday afternoon by ranchers from all the Island districts.

Every island and every reclamation district in the delta of Sacramento county was represented and committees were present from civic bodies of Sacramento. It was by far the most enthusiastic good roads meeting ever held in this country.

They propose to inaugurate a campaign at once. S. Glen Andrews, secretary of the Sacramento chamber of commerce, and A. L. Crane of Sacramento were appointed a committee to obtain a publicity man for the island district and they will keep at it until the bond issue is voted and the islands get the roads they desire.

The meeting was preliminary to a general county meeting to be held in Sacramento next Tuesday. The county has been divided into three districts and each will report Tuesday on the roads it desires improved.

#### COMMITTEE REPORTS.

A special committee from the Island district, with A. W. Stuart as chairman, reported the roads which the delta district wished improved. This report was adopted and will go to the general meeting Tuesday. It provides in a general way for four bridges connecting islands now not properly connected with the others, for a general highway from Rio Vista to Sacramento with branch roads extending into all sections of the delta lands.

The level roads will all be built on top of the levees and thus will be above high water. They will be permanent as well as being of assistance in keeping the tops of the levees in repair.

The islands of Sacramento county have paid a large portion of the farm land taxes of the county for years and have never asked for money. They have spent in many cases more than \$100 an acre on permanent levee and road improvements and now the propose to ask the other sections of the county to help them.

There are 10 good roads clubs in the delta district and each of these was represented officially by a delegate, although most of the districts had a number of ranchers in attendance. The ten districts and their representatives are:

Clarkeburg club—Frank Wise.  
Freeport club—Ralph Moore.

Courtland club—Charles Hollister.  
Sutter Island club—E. Y. Nelsoth.  
Ridge club—R. J. Goggeshall.

Walnut Grove club—I. D. Green.  
Isleton club—Ed. Turner.  
Twin Island club—Charles Studarus.  
Sherman Island club—E. J. Fraser.

Rio Vista club—Murphy Isham.

The officers of the Island district good roads clubs are: President, E. A. Gammon,

Courtland; vice-president, Paul de Back;

Isleton; treasurer, John S. Brown; Walnut Grove; secretary, W. C. Kessner, Ryde.

## HELD FOR BEATING UP CAR CONDUCTOR

Fred Ward of Oakland Charged With Making Attack On Traction Man.

STEVE, June 30.—Fred Ward, a resident of Oakland, was held in the Stege court charged with two offenses, assault and battery. He is charged with beating up Louis Lebinsky, a conductor of the Richmond car line, and resisting an officer, who was sent to take him into custody on the first charge. Ward is out on \$200 bail.

Ward, who is a solicitor for a San Francisco paper, was soliciting subscriptions for his paper, so it is claimed, and was warned that he must stop. When he is alleged to have made threats, Lebinsky put him off the car at the county line, whereupon he is said to have attacked the conductor, breaking his nose and doing other physical injuries. This occurred Wednesday morning about 8:30.

Lebinsky at once swore out a warrant for Ward's arrest, and officers were sent out to take him into custody, but only succeeded after an all-day chase in getting him in Richmond late Wednesday evening. The capture was made by Constable H. F. Davis. Ward acquired fame a year ago when he had a fist encounter with "Gunboat" Smith.

**ABE RUEF WRITES SKETCH FOR PRISON VAUDEVILLE**

SAN RAFAEL, June 30.—Abe Ruef, as a convict in San Quentin, has taken to writing vaudeville sketches for pastime and pleasure. He is author of a humorous skit which will be the chief feature of the prisoners' semi-annual show July 4. There are but two characters in the sketch, and it is said to be a comedy of capital merit.

Ruef has manifested keen interest in the preparations for the show. He has aided in directing rehearsals, but he will leave to others the taking of parts. To help make the performance a success, Ruef has donated a square piano, which after July 4 will be a fixture in the prison chapel, supplanting a dilapidated instrument. Ruef's sister in San Francisco shipped the piano to the prison.

**GRIFFITH ASKED FOR HIS ALLIANCE SPEECH**

WASHINGTON, June 30.—The State Department has asked Consul General Griffiths at London for a full copy of his speech before the Pilgrims Society there on May 22, in which he is reported to have favored an Anglo-American alliance. The department expects to receive the copy in a few days and will be ready to compare with the House resolution which asks Secretary Knox what action, if any, has been taken regarding the consul general's speech.

**NAPOLEON'S CAMP BED PRESENTED TO FRANCE**

PARIS, June 30.—Edward Tuck, formerly of New York, but now a resident of Paris, following in the footsteps of J. P. Morgan, has presented to France Napoleon's camp bed. It was used at St. Helena. The gift was accompanied by letters showing its authenticity.

## CONSOLIDATION IS CALVIN'S HOBBY

Southern Pacific Vice-President Declares for Undivided Responsibility.

SAN FRANCISCO, June 30.—The division superintendent of a railroad should be the general manager of his division, and all activities of that division should be directly under his control, is the opinion of E. E. Calvin, vice-president and general manager of the Southern Pacific Company, who is a strong advocate of the policy of undivided responsibility. The theory is that an official of a division shall be directly under the jurisdiction of the head of the division on which he is working.

The management of the Southern Pacific Company has for many years endeavored to carry out this idea. The latest move is a circular, which follows, just issued from the office of the vice-president and general manager:

"Effective July 1, 1911, all division stores, division storekeepers and their employees will be placed under the control and direction of the respective Division Superintendents, who, in turn as to store and supply matters, will be under the control of the General Storekeeper. The office files of division stores should be consolidated with those of the division superintendent to whom all communications will be addressed by the general storekeeper. The general storekeeper will hold responsible by the General Manager for division work for the uniform, economical and efficient management by superintendents of division stores."

#### IN SAME BUILDING.

"Material accounting forces of division stores should be consolidated with the division accounting bureau. Wherever practical, the division storekeeper and his accounting and correspondence forces should be moved to the same building with the superintendent, leaving the necessary issue clerks at the store."

"The accounting department will prepare detailed instructions covering the accounting features of these changes."

"One of the means of carrying out the instructions of this circular is the consolidation of office files, concentration of many branches of business being made possible by this method, all readings supervised by one head. In the same process, when practicable, is the housing of all division officers in one building, thus bringing every minus part of the division closer together. In this latter connection the Southern Pacific Company has already done much to bring its officers more closely together, and in this manner the company has promoted a more intimate acquaintance among those of all branches of the Southern Pacific Company's activities, and has encouraged personal conferences among them for the purpose of interchange of experience, observations and questions. The order of the circular will become effective on the first of July."

## RUMBALL'S DEATH WILL BE PROBED

Foul Play Suspected in Taking Off of Slain Girl's Father.

OROVILLE, June 30.—As the evidence tending to show that 13-year-old Helen Rumball was murdered by her stepmother, Mrs. Emma Rumball, or her stepson, Arthur Lewis, grows the authorities have determined to investigate all the circumstances surrounding the death of the father of the girl, Mr. William Rumball, to determine whether his death could have been caused by unnatural causes.

The father died at the family home last September. He came to Butte County from England, N. D.

The funeral of the girl was held from the United Brethren church at Gridley. It was largely attended. She was buried but her neck was broken.

Under the continued cross examinations to which both prisoners are being subjected the woman appears to be breaking. It is believed that she will be exonerated. The trial took place in the chambers of horrors, where her stepson met death.

The examination made by District Attorney Jones and Sheriff Webster definitely disproves the theory that the girl's neck could have been broken by a fall in a faint. She was bound so that it was impossible for her to have fallen.

The neck was broken either by a jerk of the rope or by a blow after the rope had been drawn taut.

The preliminary examination of the couple under arrest will be held in Oroville Monday, July 10. Attorney Guy Pennington of Chico has been retained by Mrs. Rumball to defend her and her brother.

### CARNEGIE BRANDS TAFT GREATEST OF BENEFACTORS

LONDON, June 30.—"This is the most benevolent announcement ever made in the history of man," said Andrew Carnegie when he signed the arbitration agreement between the United States and Great Britain.

"You may say to the people of the United States," said Carnegie, "that this announcement sounds the death-knell of war for the English-speaking race.

"President Taft is the ruler who revealed the path to victory and gave the word of command. He thus becomes the world's greatest benefactor. Now for Germany, France and The Netherlands. With these countries won, our work is done."

### ARCHBISHOP RIORDAN IN EUCHARISTIC PARADE

MADRID, June 30.—The Eucharistic Congress closed yesterday with a long and brilliant procession through the principal thoroughfares, which were lined with cords of troops owing to rumors that there might be clashes between the parades and the Republicans.

The procession moved from St. Jerome's church to the royal palace, where, in the presence of King Alfonso and Queen Victoria, Cardinal Aguirre pronounced the benediction.

Prominent in the procession was Archbishop Riordan of San Francisco, who on Wednesday delivered an impressive address to the congress on the subject of children's communion.

## Taft Is Vindicating the Anti-Trust Law.

With quiet but persistent energy the government is prosecuting all violators of the Sherman anti-trust law. The "big interests" are one by one being brought to bay and compelled to render submission to the law. Judgments against the Standard Oil Company and the Tobacco Trust have been affirmed by the United States Supreme Court, and now the heads of the Wire Trust have been indicted. The government is after the Steel Trust, the Sugar Trust, the Lumber Trust and the Beef Trust. They are all to be brought under submission to the law without delay or shilly-shallying.

President Taft is blowing no trumpets and making no threats, but he is enforcing the law—enforcing it firmly and expeditiously, and without clamor or hurrah. Moreover, he is proving that the Sherman Act possesses vitality as a remedy for trust abuses and monopolies in restraint of trade. His methods and those employed by his predecessor are radically dissimilar. He makes no tempestuous speeches, calls nobody a liar and writes no volcanic letters breathing fire and fury, but he is doing his duty and making the law a potent agency for good. He is doing what no President before him dared to do or attempted to do; and he is doing it in the right way—doing it by orderly process of law.

Mr. Taft has never sought to differentiate between good and bad trusts, as Colonel Roosevelt did. The Colonel was going to eat the trusts alive, he was going to enforce the Sherman law with thunder and lightning; but one of the first things he did was to give the Steel Trust written permission to violate the law. He asked the men he promised to punish to raise money to finance his political campaign. Among them were E. H. Harriman, Judge Gary of the Steel Trust, George W. Perkins of J. Pierpont Morgan & Co., and others closely connected with the trusts and big railroad interests. When the prosecutions instituted during his administration ran to his cabinet door and involved Paul Morton, he directed that Mr. Morton should be let alone and financial penalties only exacted from the railway corporation of which he was the head.

President Taft has betrayed no such contradictions in his course. He has dealt with the question of law enforcement with dignity, calmness, firmness and impartiality. While striving to promote the cause of justice and commercial freedom, he has endeavored to avoid alarming the public and disturbing business. He has not made the administration of the law the vehicle of personal whim or political expediency, nor has he invoked popular clamor as an agency of the law. But he is getting substantial results which establish the boundaries within which corporate activities may be legally conducted. He is breaking up the big monopolistic combines, liberating trade from the shackles imposed upon it and compelling organized capital to recognize the supremacy of the law and obey its commandments.

Yet in all this he has shown a sincere desire to protect all legitimate enterprises and conserve all capital honestly employed. He has proceeded with a view to averting a financial crash that would paralyze industry and dislocate commercial conditions. In short, has proved himself a wise and capable executive fully alive to the responsibilities resting upon him and resolved to perform his duty in the manner best calculated to serve the public interests. It is a grateful relief from the fanfare, fustian and fiascoes, the cheap glories and farce-comedy heroics of the recent past. Sanity, soberness and righteous intent have succeeded the fever of popular excitement and the processes of passion and delirium aroused by demagogic appeals to prejudice and suspicion and directed by noisy ambition and swollen egotism.

Edward Hines, the Chicago lumber dealer, accused of raising the slush fund that is alleged to have been used to elect William Lorimer to the Senate, contradicted in every detail the story told by Clarence S. Funk of the Harvester Trust in his testimony before the Senate Committee. Hines said he never raised any fund, never spent any money to elect Lorimer and never asked Funk for a \$10,000 contribution from the McCormick Harvester Company. On the contrary, he alleged that Funk offered to contribute money to promote Lorimer's election, but that Lorimer declined to accept aid from that quarter. Funk either gratuitously prejured himself in an effort to ruin Lorimer and have him expelled from the Senate or Hines has committed deliberate perjury to defame Funk and protect Lorimer from the consequences of wholesale bribery. There is no escape from the alternative. The public will be inclined to believe Funk. The refusal of Hines to appear before a committee of the Illinois Legislature looks bad. As Senator Kenyon said, somebody ought to be indicted for perjury. Gross perjury has undoubtedly been committed, and committed in an effort to cover up or promote another crime.

What the State is praying for is the selection of an exposition site and less wrangling by a d— sight.

In opposing the Canadian reciprocity agreement, Senator Cummins now appears in the role of a standpat protectionist. He claims to be a better friend of protection than Senator Penrose, Senator Gallinger and Senator Lodge. But when the Payne-Aldrich bill was pending, he played the part of a tariff smasher. In a flaming speech he assaulted the protective policy, declared that it was the progenitor of trusts and monopolies and an agency for robbing the people. He voted with the Democrats against the Payne-Aldrich law, and now he is standing pat for the tariff which he declared to be a fraud and against which he cast his vote. He is lined up with Uncle Joe Cannon and other standpat irreconcilables, also the farmers of No. 11 Wall street and those babes of the wood, the lumber, woodpulp and paper trusts.

## The Political Situation in California.

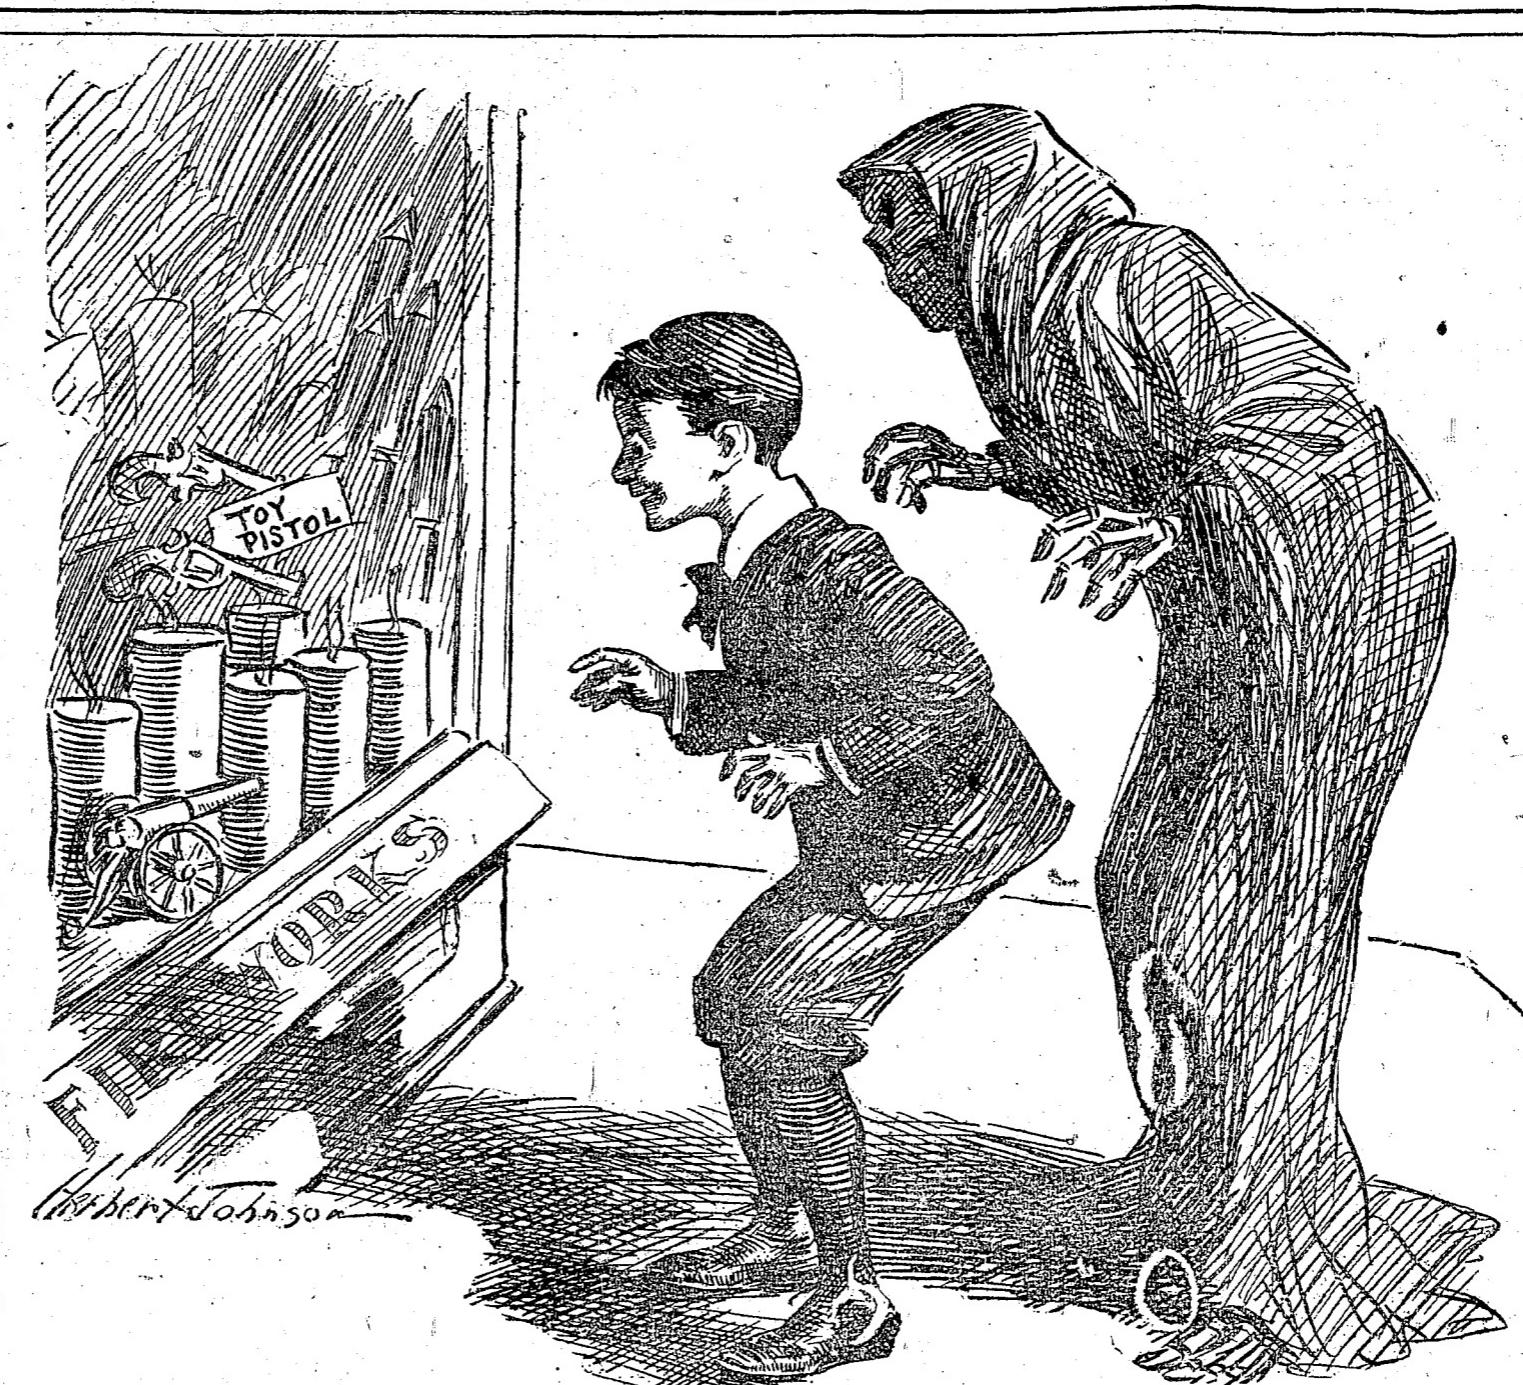

Mr. John D. Spreckels of San Francisco is in Washington, and has been talking politics to the reporters of the national capital. He says California is for Taft and will send a Taft delegation to the National Republican Convention which will be held next year. He is quoted as saying:

"California is for Taft. There is no more doubt of California's support of Taft than there is that Taft will be renominated. The President's course meets the approval of Republicans of my State, and many Democrats also admire him and will vote for him."

Mr. Spreckels states the truth when he says California is for Taft. Public sentiment in this State is undoubtedly for the President, and if the Republican voters are given an opportunity to express their preferences at the polls a Taft delegation will be sent to the convention.

But will they be given that opportunity? Mr. Spreckels should be aware that there is a scheme already prepared to prevent the Republican electors from having anything to say about who shall be nominated for President. The so-called direct primary law contains no provision for a primary to choose delegates to national conventions. The Republican State Committee is controlled by men who are opposed to Taft and are committed to La Follette. They will

## EAGER

not consent to any arrangement that will allow the voters to express a preference for Taft—that is, if they can help it.

These men seriously propose to call the county nominating conventions which assembled in 1910 together and have them elect delegates to a State convention which will adopt a platform and choose delegates to the national convention. If this plan be followed out, the voters of the State will not be consulted at all. The delegates selected in the manner indicated will represent the political junta headed by Meyer Lissner, Chester H. Rowell, E. T. Earl and Governor Johnson, who are all for La Follette and against Taft. That is, they are against Taft and for La Follette at present, but they may be directly the opposite a few months hence. If they perceive that La Follette has no chance of being nominated they will promptly abandon him; and if they are certain Taft can win without their help they will vociferously declare for him.

Surely Mr. Spreckels must know that the above pictures the political situation in California today. It is to be noted that Senators Works and Representatives Kent and Stephens, who represent the Lissner-Rowell League at Washington, signed the manifesto recently sent out to boom La Follette's candidacy. They cannot be for Taft or they would not declare for La Follette. Nevertheless La Follette cannot get the delegation from this State unless a trick be played on the Republican voters. That trick will be played unless public opinion asserts itself and frustrates the job.

## DEATH IN THE AIR

The shocking tragedies in France and the rapid increase of the roll of aviation fatalities give emphasis to the inquiries which have been raised by Senators of France concerning the extent to which it is proper for the government to give countenance to aviation contests and for army officers to participate in undertakings of so great peril. The reply that it was necessary for the army to keep abreast of civilians in the practice of aerial navigation evoked the applause which is always ready in France, and apparently disposed of the matter so far as the Senate was concerned, and, indeed, there was some force in it. But we should be surprised to see the case permitted to rest there. In this instance the fault or the misfortune was not due to the work of army officers, but to the sensation-mongering of newspapers which were not satisfied with recording news but sought to make news, and in so doing brought about a triple tragedy.

The fact needs to be recognized that aviation is exceedingly perilous and probably always will be. At present it is in an experimental stage, in which the danger of accident is greater than it

may be hereafter. But it is difficult to see how any thoughtful man can hope ever to overcome the radical and essential peril which even at the best it will involve. Levitation cannot be invented. The law of gravitation cannot be abrogated. When men can invent motors which will never fail and framework, planes and rudders which will not break, and when they can cultivate in themselves nerves which never weaken or flinch and judgment which cannot err, then aviation will be somewhat less dangerous than it is now; though the peril will not be wholly nor even in major part abated until men can compel the winds to obey them.

There is a sufficient promise of practical utility in aeroplanes and also in dirigible balloons to warrant the continuance of scientific experimentation.

But in the present stage of their development it is foolhardy if not worse for mere amateurs to use them for sport, and it seems grossly improper to encourage in any way indulgence in competitions which involve not so much scientific trial as mere rivalry in rashness.—New York Tribune.

## EDISON AS PROPHET

Thomas A. Edison, greatest of all American inventors, is firmly convinced that the steam engine has about run its course. He believes that within 100 years such surface transportation as may exist will be propelled entirely by electricity.

He looks to aviation to furnish means of passenger traffic. In his mind's eye he pictures gigantic carriers, travelling at tremendous speed, that will bring the world into still closer communication.

Not the least attractive and interesting of his dreams is that the house of the future will be furnished throughout with steel. He expects tables, chairs and all other similar articles to be made of metal, so light in construction that it will be no greater effort to move a sideboard of the future than it is to raise a chair of today.

Books of the future, he says, will be printed on leaves of nickel, so light and thin that a volume of forty thousand pages would be only two inches wide. Such a volume would weigh less than a

pound.

Mr. Edison can produce a pound weight of these nickel leaves more flexible than paper and ten times as durable, at a cost of approximately \$1.25.

This subject of metals naturally leads to Mr. Edison's particular hobby—the approaching end of the rule of gold. The great inventor is confident that the time is coming when the power of the yellow metal will have departed.

He believes sincerely in transmutation of metals. Like the alchemist of old, he is certain that the time will come when bars of iron can be changed, by scientific process, into bars of gold. Naturally, such a condition would mean the termination of gold's peculiar usefulness.

These declarations five years ago, even from one so eminent as Edison, would have been greeted with jeers. Today, with so many majestic discoveries just behind us and so many more in immediate prospect, there is nothing too radical to daunt belief.—Seattle Times.

## 20 YEARS AGO IN OAKLAND

Along the line of the new electric railway the country has the appearance of a new western town, where houses spring up like mushrooms overnight. In the vicinity of the power house a large number of new structures are being erected.

County Superintendent G. W. Fitch is desirous of removing his office from the Court House into the Hall of Records

and the matter has been suggested to the building committee of the Board of Supervisors.

City Attorney Johnson returned last night from his thirty days vacation in the East. In an interview he said:

"Chicago is a wonderful place for big buildings. On State street one day I noticed a business house building on a Beck.

# FELONY TO STEAL AN AUTOMOBILE

"Joy Rider" Thefts in Illinois  
Just as Bad as the Other Kind.

CHICAGO, June 30.—Forty-nine automobiles valued at \$125,000 have been stolen in Chicago since June 1, according to the police records. The automobile thieves, according to the police, are of two general classes—the "joy riders" and those who steal to sell. The machines taken by the first class are usually recovered after they have been abandoned in some out-of-the-way section. Few of the machines stolen by the professionals are ever recovered by their owners. It is the opinion among automobile owners and dealers that a completely organized "fence" is in existence which is used as a clearing house by the thieves.

Under the new law which will go into effect within a few days all automobile thefts will be classed as felonies, with penitentiary sentences as punishment. This is expected to have a tendency to decrease the thefts.

# WATER COMPANY FAILS TO FILE SUIT AGAINST CITY

Pendleton-Titus Ironclad Agreement Acts as Brake on Corporation's Desire for Litigation

Failure of the Peoples Water Company to commence today to enjoin the city of Oakland from enforcing the schedule of water rates, which goes into effect tomorrow precludes the possibility of litigation over this matter and insures to the consumers in this city a continuance of the low rate without a legal battle to determine their right. The failure of the company to institute suit for injunction against the city, said President Frank C. Havens declared he would if the rates were not raised by the outgoing council, is due in all probability to the ironclad agreement signed in 1908

between the city and the water company providing that the company would not ask for an increase, nor attempt to collect an increase in the rates. This means a notable victory for the city of Oakland.

Today is the last day possible for the filing of suit, and in the opinion of the city's special counsel the water company should have asked for its injunction at least five days before the going into effect of the ordinance to be contested in order to be strictly within its legal rights. Several of the members of the council have gone out of town on their vacations, and it would be impossible at this late hour to serve papers upon them to make the suit to enjoin operative.

## GIVE UP INTENTION.

As a consequence it is declared by experts that the directors of the water company gave unquestionably given up the intention of collecting the minimum rate, and Oakland will be permitted for the twelve months to come to continue to enjoy the low rates scheduled in the Pendleton-Titus agreement.

The city of Berkeley faces an injunction suit, as result of the fact that that city had no previous agreement with the water company such as the Pendleton-Titus agreement of 1908 to be used as a weapon against the company. Berkeley reduced the minimum rate from \$3.25 to \$2.25. It is evident the right of the city to enforce this resolution providing the lower rate that the injunction has been filed and that the legal battle will be waged.

In Berkeley an attempt to compensate in the lowering of the minimum rate to consumers by raising the hydrant rate paid by the city, and so balance the total reduction put in effect against the water company was made. This did not have the desired result, however, as the water company had asked, as in Oakland, not for a continuation of the old rates, but for an increase to meet the cost of depreciation. As a consequence litigation has been instituted in Berkeley that will prove costly in the extreme to the city.

## ADHERED TO AGREEMENT.

As the Pendleton-Titus agreement was considered by the City Council of Berkeley in binding upon the water company in protecting the city against a raise in the rates, it would by inference be binding upon the city as a proper

## GIVES FREE HAND.

Avoidance of litigation over the water rates gives the city a freer hand in attacking the problem of condemning the properties of the Peoples Water Co. for a municipal plant. By the avoidance of litigation suits in the past four years the city has saved several thousand dollars. In addition to this, by putting into effect the Pendleton-Titus agreement which provided for successive lowering of the rates during four years of 5 per cent on the rates in effect the year previous, 5 per cent for the second year and 10 and 10 per cent for the two succeeding years.

This lowering by agreement saved the consumers in actual coin over \$90,000 by saving on the credit side of the city's handling of the water business, and will balance for the expense work of carrying on the condemnation proceedings under the right of eminent domain.

**MISS GLADYS MOORE and GAIL CLELAND, who will depart for Japan after marriage.**

BERKELEY, June 30.—Honored by appointment to the professorship of English in the Tohoku Imperial University at Sapporo, Japan, Gail Cleland, a graduate of the University of California, will sail to his new post of duty, after marrying Miss Gladys Moore, who was graduated from the same university with this year's class.

The wedding will take place July 18 in Trinity Methodist church, Rev. Charles Dalton, the pastor, officiating.

The couple will take passage on the steamer Montague from Vancouver, August 8.

The appointment of Cleland was made recently through the Imperial Japanese government which had been suspended with the appointment secretary of the University of California in search of a suitable professor of the English language in the Tohoku University.

Cleland is one of several government appointments. But few such appointments are obtained by Americans, and the honor accorded Cleland also reflects credit upon the American government.

Cleland was graduated from college in 1909 and for the last two years has been an instructor in English and history in St. Matthew's Military Academy at Burlington. He is a member of Los Amigos club, a student organization, and of the Young Men's Christian Association. His scholarship record in college was high. Cleland's home is at Spokane.

Miss Moore has been president of the College Young Women's Christian Association and a member of the Princeton University honor society of the university. She resides with her parents, Mr. and Mrs. E. P. Moore, 2214 Dana street.

## BOY SCOUTS TO TAKE LONG HIKE

Troop 1 Will Ascend Mt. Tamalpais and Explore Muir Woods.

Troop No. 1, Boy Scouts of America of the First Presbyterian Church of Oakland, and the Stag Patrol of the Centennial Methodist Church, with a delegation from the Hayward's Boy Scouts, will go to Muir Valley on the afternoon of July 3, camping over night and starting early next morning for a hike up to the top of Mt. Tamalpais. If they have time on their return they will come through Muir Woods, arriving in San Francisco on the afternoon of the 4th.

This promises to be one of the most interesting trips the Scouts have taken.

They will do their own cooking and do numerous other scouting stunts.

While a great many of the Scouts are out of town on their vacation, the organization is making things lively for those who remain at home. Among the other expeditions being planned for the future are: One land; a trip to Mt. Baker; a trip to Golden Gate Park; one night's camp in the Berkeley hills; four days' camp at Crow Gulch, near Hayward, and a trip by wagon to Mt. Hamilton Observatory, where they will have a special night to look through the large telescope.

These are a few of the numerous good things planned for the scouts. Boys who are not members of any scout patrol should communicate immediately with Victor Ligda, Scout Commissioner of Oakland, whose office is in the City Hall Annex with Dr. Dickie, Superintendent of the Oakland Playgrounds.

# STETSON TELLS OF PENNSYLVANIA SUGAR DEAL

Declares He Was After a Big Commission or None at All.

**"EARLE MAKES ME TIRED" DECLARIES THE WITNESS**

**"Segal Did Up That Shaving Shop Well," He Tells Committee.**

WASHINGTON, June 30.—David S. Stetson of Philadelphia, a cousin of Washington B. Thomas of the American Sugar Refining Company, told the House sugar trust committee today that in 1903 he conducted negotiations with Adolf Segal of Philadelphia for the purchase of the Pennsylvania Sugar Refining Company by the sugar trust.

Segal testified yesterday that he had no recollection of Stetson, though the latter had told him recently that he had conferred with him in the Manufacturers' Club at Philadelphia.

"I talked to Segal at the club at his instance regarding the sale of the Pennsylvania refinery to the American Sugar Refining Company," said Stetson today.

Stetson said Segal told him how he happened to sell the Camden refinery to the American Company.

**SEGAL WAS "BUSTED."**

Stetson said he wrote Thomas that he thought Segal was "about busted and would sell," and estimated the cost of the refinery at between \$1,800,000 and \$2,000,000. Philadelphia friends told him, he said, that the real estate company was on the bonds of the Philadelphia refinery and was in danger of going to the wall.

"This I kept within my own bosom," said the witness, who added that he repeated all this to Thomas.

The witness said his letters to Thomas were forwarded to O. Havemeyer. He added that he declined Segal's offer to give him \$5000 if he would sell the Pennsylvania refinery to Havemeyer.

"I made up my mind then," said Stetson, "that if I could not make a good commission I would block the game. I informed Thomas of the dangerous financial condition of Segal and that if the American Company would hold off they could get the Pennsylvania refinery for a song."

**EARLE TIRES HIM.**

George H. Frazier, a director of the American Company, according to the witness, advised him to send the correspondence to Thomas. Once Thomas sent an agent from Boston to get from him some correspondence he had failed to forward.

Stetson said Earle was the only man who made anything out of the deal.

"Earle," he added, "would not do anything unless he was well paid for it. He makes me tired."

"Segal did Earle up pretty well," said Stetson, "or rather did the Philadelphia Real Estate Company—that shaving shop. That company may be all right now. At last Earle says he has rehabilitated it."

**SWINDLER SENTENCED.**

SAN FRANCISCO, June 30.—Ole Elefson, who, after pretending to burn a certificate of deposit in the sum of \$195 issued by the bank of Rio Vista, had another certificate made out to him and then negotiated both, was sentenced to four years at Folsom penitentiary by Judge Dunne today.

called his political enemies a lot of liars. He also said his campaign had cost him \$10,000. He then asked if I was the tax agent of the Spring Valley Water Company. I told him I was not. He wanted to know who was the tax agent. I said it would be either Lawrence of Bourn or Eastman.

"He said, if I reduce the assessment he would be satisfied. I told him I would do it. He makes me tired."

The witness identified himself as the statement he had prepared at that time which was filed for identification.

The judgment against Dalton was read and then an adjournment was taken until this morning.

**YESTERDAY AFTERNOON.**

Yesterday afternoon, after Michael Coyne, a retired employee of the Southern Pacific, residing at 1521 Eighth street, had been agreed to as the twelfth juror in the case, by both the prosecution and the defense, Coyne was called by Judge Brown, how old he was. Coyne replied that he was 78 years of age. He was then asked by the court if he felt strong enough to go through the ordeal of sitting on the jury and also as to the condition of his health.

Coyne replied that he thought he was strong enough and that his health was generally good. He was then sworn in.

The court declared a recess and excluded from the room all save the jurors and those directly connected with and interested in the case and after consultation with the jurors and counsel on both sides as to what time should be given to the sessions of the court during the trial, an agreement was arrived at that the morning session should continue from 10 to 12, and the afternoon from 1:15 to 5 o'clock.

P.A.A.O. TO HOLD  
ROWING REGATTA

Senior Barge Event Will Be a  
Feature of July 4th  
Racing Events.

The Pacific Association of Amateur  
Coxswains will hold their championship  
rowing regatta on the Alameda estuary  
on the morning of July 4. Final arrangements  
have been completed for the occasion,  
and teams from the Alameda Club,  
South End and Ariel Clubs of San Francisco,  
and the San Diego Rowing Club  
will be seen in the competition, which  
promises to produce some of the hardest  
races ever pulled off under the auspices of  
the association.

The senior barge event will be the  
feature of the races. This event will be  
participated in by crews from the Alameda,  
Ariel and San Diego clubs. The San Diego men are coming up especially  
for this event and, as they will be allowed  
to use their own boat instead of the  
regulation barge, they will have an advantage  
over the members of the transbay organizations. Handsome trophies  
donated by prominent merchants of Oakland  
and Alameda county will be presented  
to the winning teams in the various events.

## MANY HAVE ENTERED.

Following are the entries:  
Senior skiff race—Sommer and F.

HURLED TO DEATH  
BY 15,000 VOLTS

John Norman Bauder Dies of  
His Injuries at Merritt  
Hospital.

John Norman Bauder, who fell  
from the second floor of the power  
house of the Pacific Gas and Electric  
Company at Twenty-third and Harrison  
East Fourteenth street yesterday af-  
ternoon, after receiving 15,000 volts  
of electricity through his body, died  
at the Merritt hospital last night.  
Death was due to the shock from the  
electricity and to fracture of the skull  
from his fall.

Bauder, who had been employed at  
the plant only one day, had gone to  
the upper part of the power house  
to attend to some work. A moment  
later his body dropped, a mass of  
flame, to the lower floor. By some  
accident, the cause of which has not  
been determined, the current had  
been short-circuited through his body,  
setting his clothes on fire and  
paralyzing his muscles. Bauder was  
removed to the Merritt hospital, where  
he expired a few hours later.  
The deceased is survived by a widow  
and two sons.

MISS STONE OF NAPA  
WEDS LOS ANGELES MAN

LOS ANGELES, June 30.—George  
Alfred Thompson, a prominent local  
society man, and Miss Cressy Stone  
of Napa, daughter of Dr. and Mrs.  
E. E. Stone, were secretly married in  
this city yesterday. Though the couple  
insist it was not an elopement, the  
parents of the bride and groom, nor  
their most intimate friends, knew  
about it until after the ceremony  
had been performed and the  
couple had departed on their honeymoon.  
Their parents and friends  
were informed of the marriage by  
telegram before they left the city.

Thompson is the son of George P.  
Thompson, retired capitalist, of this  
city, and was a graduate of the Uni-  
versity of California, with the class of  
1911. His bride attended school in  
San Francisco, where she was known  
as the prettiest and most popular of  
the younger social set. Their engagement  
was announced about three  
weeks ago and plans were being  
made for an elaborate marriage next  
fall.

POSTPONE DEBATE ON  
SUFFRAGE QUESTION

The debate on equal suffrage, which  
was to have been held Wednesday evening,  
was postponed Wednesday evening,  
June 30. The debate will be under the  
auspices of the J. C. Penney Lyceum.  
Miss Myra Virginia L. Simmons will uphold  
the cause of equal suffrage, while  
Charles D. Harris will oppose her.

## WOULD PROBE TRUST.

WASHINGTON, June 30.—An  
investigation to determine whether the  
International Harvester Company has  
violated the anti-trust Interstate  
commerce or national banking laws  
and whether it has entered into  
relations in violation of law with other  
persons, firms or corporations, is  
proposed in a resolution introduced  
yesterday by Representative Lobeck  
of Nebraska.

Constipation brings many ailments in  
its train and is the primary cause of  
much sickness. Keep your bowels regular,  
madam, and you will escape many  
of the afflictions which women are  
subject to. Constipation is a very simple  
disease, but like many simple diseases, it  
may lead to serious consequences.  
Nature often needs a little assistance and  
when Chamberlain's Tablets are given  
at the first indication, much distress and  
suffering may be avoided. Sold by

### BILLIE BURKE PROTESTS SHOWER BATH

Actress Frowns When Informed of Portland Y.W.C.A. Regulation.

**P**ORTLAND, Ore., June 30.—Billie Burke, who closed an engagement Wednesday night here, was forced by the Young Women's Christian Association to take a shower bath. The actress, who belongs to the Eastern branch of the Y. W. C. A., visited the theater, bent on a plunge.

Billie started for the edge of the tank. She poised and went about to plunge in, when Miss Millie Schloth, in charge of the aquatic department, accosted her. "You'll have to take a shower bath first," she said.

Billie frowned, hesitated and then went under one of the shower faucets, took a hasty rinse and again started for the tank.

"You'll have to take a thorough bath," stated Miss Schloth.

This was too much for Billie...

"Because," said Miss Schloth, "that's out of our iron-clad rules."

"Cat!" said the actress, sotto voce; but she went back to the shower and took a thorough soap and water treatment and then had her swim. She declared afterward that much of the pleasure of the event was lost to her.

#### Charges Extortion

RENO, Nev., June 30.—Joseph Fratz, who gave his occupation as a woodsmen, was charged yesterday with attempting to extort funds by threats from Mrs. Angie Buckley, a wealthy member of the divorce colony here, formerly of Washington, D. C., and New York. Fratz was arrested after he had repeatedly visited Mrs. Buckley and endeavored to secure funds on the pretense that he was an officer from California.

According to the woman's story, Fratz informed her that she was under arrest for receiving stolen property and she had prepared to return to California. The woman was terrified at the accusations and after receiving several visits from Fratz she informed the police and then fled from her apartments by a rear entrance. She went to Carson City by auto and remained in that city with friends until Fratz was taken into custody.

During the absence, Fratz visited the woman's apartments and was informed by the maid that her mistress was out of the city. The maid stated that she was offered a bribe to reveal the whereabouts of Mrs. Buckley, but refused.

Officers who were in hiding within the

It is understood that Mrs. Buckley offered to give Fratz \$50 to cease his persecutions, but he demanded \$250. Buckley stated that she made this offer to escape the notoriety that would ensue should she have Fratz arrested, but she was forced to swear to a complaint to secure any peace of mind.

Fred Tompkins and wife of Pasadena, who are visiting here, were riding in their automobile when they drove into a flock of blackbirds. One of the birds struck Tompkins on the forehead. The bird was killed. Tompkins was rendered unconscious.

He was at the wheel and fell over on his wife's shoulders.

Mrs. Tompkins did not become excited, but took hold of the steering gear of the machine, shut off the power, applied the brakes and brought the automobile to a stop.

services were conducted at Aledo, Ill., where Russell and Eliza Park, the aged parents of Mrs. Harris, reside. Mr. and Mrs. Park are over 80 years of age and were unable to make the journey from Aledo to Medford to attend the funeral of their daughter, and arrangements for identical services at both places were consummated by telegraph.

#### SMELTER TO EXPERIMENT WITH SMOKE-KILLERS

REDDING, Cal., June 30.—In an attempt to conform to Judge Morrow's recent interpretation of the new State law requiring the installation of smoke-consuming devices on smelters, the Coram-Balkala Smelting Company of Redding will install equipment by which it hopes to eliminate 90 per cent of the smoke fumes from the smoke of its plant. This announcement was made here today.

The smelter will be closed July 15 to allow the carrying on of a series of experiments during a period of two months. Experiments previously made have not resulted in the elimination of more than 45 per cent of the fumes. The work will cost \$10,000.

#### URGES EXPEDITION.

WASHINGTON, June 30.—Expedious action in pending treaties with Honduras and Nicaragua providing for customs guarantees for foreign loans by those governments was urged by President Taft in a message to the Senate.

#### Keeps Divorce Secret

WILLIAMS, June 30.—Only yesterday, on the date when the final decree became due, did the fact become public that Ruby L. Stovall had one year ago been granted an interlocutory decree of divorce from Hiram C. Stovall, a well-known capitalist and banker of this place. The proceedings a year ago were kept secret and no one was aware of the divorce action.

In her complaint, Mrs. Stovall, who was formerly a teacher in the school here, alleged that her husband carried on clandestine meetings daily with a well-known society girl in what is called the scale house; that she called him by telephone daily; and that their conduct even on the street became notorious, causing the plaintiff great mental anguish.

#### Wife Averts Trouble

SAN DIEGO, June 30.—A blackbird came near causing a serious automobile accident in the Sixth street boulevard in Balboa park yesterday morning.

# SAMUEL B. AXTELL IS HELD TO ANSWER FOR MURDER

PROSECUTION  
SPRINGS A  
SURPRISE

New Witness to Shooting Is  
Produced Who Testifies  
at Hearing.

Every Precaution Is Taken to  
Guard Slayer From Acts  
of Violence.

STOCKTON, June 30.—Samuel B. Axtell, charged with murdering Charles Solars of Lodi in the Lodi garage on the morning of June 16, by shooting, was this morning held to answer by Justice A. C. Parker without bonds. Nine witnesses were introduced by the prosecution represented by District Attorney E. F. Foltz, Assistant District Attorney C. P. Rendon and former Judge W. B. Nutter. No testimony was offered by the defense, which will be conducted by former District Attorneys A. H. Ashley and Geo. F. McNoble, assisted by Attorneys G. M. Steele and Carlton C. Case.

**NEW WITNESS IN CASE.**

Testimony for the prosecution went deep into the details of the crime. Two surprises were sprung by the prosecution in the testimony of Dr. Jas. E. Nelson and that of L. S. Richards. Dr. Nelson was a witness to the shooting. It has been thought that J. E. Stayton was the only person who saw Axstell fire the shots. Richards testified that shortly before the shooting Axstell hurried past him on the streets of Lodi, refusing to grant his request for an interview at the same time remarking: "I am looking for a man."

Particular stress was laid by the prosecution on the testimony of Dr. S. W. Hopkins and Dr. J. E. Nelson. Both stated that Solars was fatally injured and would have died within three hours had an operation not been performed. Death would have been caused by an internal hemorrhage due to a wound in the liver, they testified. It is anticipated that the defense will attempt to show that death was due to surgical shock.

It was brought out that following the shooting Axstell made the remarks: "I aimed to kill him" and "if an old man had not been in the way I would have gotten him on the first shot."

During the trial the defendant manifested no sign of nervousness save a slight pallor when he first viewed the packed crowded courtroom. Though not handcuffed he was heavily guarded when taken from and to the jail. Every precaution was taken against any show of violence, as feeling against him has been running high in Lodi, where the defendant formerly owned and edited the Lodi Sentinel.

## CARDINAL GIBBONS 50 YEARS PRIEST

Offers Up Mass of Thanksgiving in Honor of the Event.

BALTIMORE, June 30.—In a little chapel at home, where he is at present visiting and about fifty miles from Baltimore, Cardinal Gibbons offered up a mass of thanksgiving today in honor of the most tremendous event of his long career. Today he completes fifty years of a successful priesthood and twenty-five years as cardinal and nominal head of the Catholic church in the United States.

On June 30, 1861, then Father Gibbons, after finishing his education for the priesthood at St. Mary's Seminary was ordained at the cathedral here by Archbishop Kenrick. Just twenty-five years later, June 30, 1886, the red hat was conferred on him, also at the cathedral.

The cardinal arose today at his usual hour, 6 o'clock, and with a single assistant celebrated a low mass with only the members of the household attending.

## BERKELEY'S CITY COUNCIL MEETS IN LAST SESSION

### HODGHEAD TO REPORT ON PROGRESS

Mayor Wilson, E. J. Turner and J. A. Wilson to Be Sworn Tomorrow.

Resignation of City Attorney Greene Is Accepted Today.

BERKELEY, June 30.—Mayor-elect J. Stitt Wilson, Socialist, to be president of city council, succeeding Beverly L. Hodghead.

John A. Wilson, Socialist, to be commissioner of finance and revenue and ex-officio member of Board of Education, succeeding R. A. Berry.

E. Q. Turner, to be commissioner of public works, succeeding W. F. McClure.

These will be sworn in as members of the new administrative body at the final meeting of the old city council tomorrow morning.

The first three named form a majority which will support Mayor Wilson in carrying out his municipal policy. The hold-over members of the council are E. B. Norton, commissioner of public supplies, and Christian Hoff, commissioner of public health and safety.

#### COIN NOT COUNTED.

Because the old city council had not counted the coin in the municipal treasury prior to retiring from office, the coin will remain in power until tomorrow morning at 10 o'clock, when the oath of office will be administered to the newly elected mayor and councilmen. Had the oaths been taken today, as planned, the present council would not have been legally empowered to count the money again as the new council would have been in power.

At this morning's session speeches expressing the esteem of all the present councilmen for Mayor Hodghead and fellow members were made in the presence of a lobby of citizens.

#### ACCEPT RESIGNATIONS.

Among the final acts of the council was the acceptance of the resignation of City Attorney B. D. M. Greene, who is to be succeeded by Redmond Staats, who occupied the same position under the old board of town trustees. The resignations of B. J. Bither and Dr. W. W. Underhill of the park commission, were also accepted, and their places will be filled by the new council.

Retiring Councilman W. F. McClure was appointed to act as engineer to prepare a report on the Hatch-Hetchy water supply in conjunction with J. H. Dockwiler of Oakland. McClure is to succeed Engineer J. D. Galloway, who recently resigned. McClure is also a delegate to the hearing on the Sierra water supply which is to be held soon in San Francisco.

#### WILL GIVE REPORT.

Retiring Mayor Hodghead is to present to the council tomorrow morning his second annual report of municipal accomplishments. The communication will deal with the adoption and inauguration of the commission plan of government in Berkeley with the features of initiative, referendum and recall, with the proposal of ordinances distributing and assigning the different administrative powers, authorities and duties. Prescribing the duties of the chief officials and providing for the organization and management of the police and fire departments and for the establishing of the various commissions.

One of the most instructive features of the report tells of finances. The tax rate for the current year for general municipal purposes, according to Mayor Hodghead, was reduced one cent. The bond tax was also reduced three cents, and the library tax two cents, making a total reduction in the municipal tax over the previous year from \$1 cents to 75 cents.

The comparative rate on these municipal taxes for the past two years has been as follows:

Library tax, 1905-10, 1 cents; 1910-11, 5 cents; bond tax, 1909-10, 8 cents; 1910-11, 6 cents; cash, 1909-10, 2½ cents; 1910-11, 3½ cents; general municipal expenses, 1909-10, 62½ cents; 1910-11, 61½ cents; total 1909-10, 81 cents; 1910-11, 75 cents.

## 500 CHILDREN ARE REHEARSING FOR CHORUS

Arrangements Complete for Oakland's July 4th Celebration.

### LITERARY PROGRAM WILL BE NOTABLE

Regatta On Lake Merritt Will Call Out Best of Talent On Coast.

Arrangements for the Fourth of July celebration to be given at Lake Merritt were practically completed at a meeting of the committee having the affair in charge held yesterday afternoon.

The literary program will be rendered in the natural amphitheater. Rev. Thomas A. Boyer will deliver the oration; Professor L. D. Inskape will read the Declaration of Independence and Rev. William Day Simonds will pronounce the invocation.

The hundreds of cures which you are hearing about every day in San Francisco are not in any way due to my personal skill. It is my practice, which represent the combined brains of the greatest medical specialists, science has over known, that is doing the work. I have paid thousands of dollars for a single formula and the exclusive right to manufacture it. I have paid thousands and tens of thousands of dollars for others of my various forms of treatment. That is why I get such remarkable results. I have simply bought the best products on the best brases in the world and placed this knowledge within the reach of the general public."

Among Munyon's callers yesterday were many who were quite emphatic in their praise of the man. One of these said:

"For six years I suffered from rheumatism. My arms and legs were affected so badly that I could hardly walk and I could not raise my arm to my head. The pain was most severe in the back, however, and I was in perfect torture. I tried in many ways to get cured, or even to secure temporary relief, but nothing seemed to help me until I was persuaded by a friend to try Dr. Munyon's uric acid course. It was the most marvelously acting medicine I ever saw. Within a week the pain had most gone and inside of a month I considered myself entirely cured. I can now go out in the worst weather—cold or wet or anything else, and I have not felt any suspicion of a return of the disease. I think that any person who has rheumatism and does not take the uric acid course is making a great mistake."

The swimming events have been placed in charge of Sid Cavill of the Olympic club, and he has arranged a varied program of races, polo and novelty events all of which are bound to prove interesting.

In the rowing races there will be barge races for senior, intermediate and junior crews and in the skiff races there will be a race for senior oarsmen and another for juniors.

The Dolphins will take their boats over to Lake Merritt Tuesday morning and the regatta will start at 2 o'clock. The rowing events will be run off first and the aquatic sports will follow.

Prominent among those who are scheduled to compete in the events is Alexander Paper.

#### WATER POLO CONTEST.

A feature will be a water polo contest between teams from the Dolphin Club and the Olympic Club. The entries: Junior barge race, Dolphin Club, crew No. 1, colors navy—Stroke, W. C. ## MUNYON'S WORK TALK OF TOWN

Big Success Shown by Number of Callers at Headquarters Here.

Local Man Tells of Remarkable Relief From Rheumatism of Years' Time.

The apparent success which Prof. James M. Munyon, the world famous health authority, has been meeting in San Francisco has stirred much discussion here. A continuous stream of callers has kept Dr. Munyon's expert representatives busy every day for several weeks at the main store of The Owl Drug Company, in the Phelan building, where he has established headquarters for meeting the people.

Munyon's following seems to be enormous. Those who believe in his theories appear to think he possesses the most marvelous powers for the healing of all sorts of diseases. Munyon himself laughs at this. He says:

"The hundreds of cures which you are hearing about every day in San Francisco are not in any way due to my personal skill. It is my practice, which represent the combined brains of the greatest medical specialists, science has over known, that is doing the work. I have paid thousands of dollars for a single formula and the exclusive right to manufacture it. I have paid thousands and tens of thousands of dollars for others of my various forms of treatment. That is why I get such remarkable results. I have simply bought the best products on the best brases in the world and placed this knowledge within the reach of the general public."

Among Munyon's callers yesterday were many who were quite emphatic in their praise of the man. One of these said:

"For six years I suffered from rheumatism. My arms and legs were affected so badly that I could hardly walk and I could not raise my arm to my head. The pain was most severe in the back, however, and I was in perfect torture. I tried in many ways to get cured, or even to secure temporary relief, but nothing seemed to help me until I was persuaded by a friend to try Dr. Munyon's uric acid course. It was the most marvelously acting medicine I ever saw. Within a week the pain had most gone and inside of a month I considered myself entirely cured. I can now go out in the worst weather—cold or wet or anything else, and I have not felt any suspicion of a return of the disease. I think that any person who has rheumatism and does not take the uric acid course is making a great mistake."

The swimming events have been placed in charge of Sid Cavill of the Olympic club, and he has arranged a varied program of races, polo and novelty events all of which are bound to prove interesting.

In the rowing races there will be barge races for senior, intermediate and junior crews and in the skiff races there will be a race for senior oarsmen and another for juniors.

The Dolphins will take their boats over to Lake Merritt Tuesday morning and the regatta will start at 2 o'clock. The rowing events will be run off first and the aquatic sports will follow.

Prominent among those who are scheduled to compete in the events is Alexander Paper.

### Opium Valued at \$8000 Seized on Nippon Maru

Contraband Drug Found Concealed in Double Bottoms of Pickle Tubs.

SAN FRANCISCO, June 30.—Concealed in the double bottom of pickle tubs in the Nippon Maru and hidden in the remotest portions of the vessel, one hundred and eighty-one tins of opium, valued at nearly \$8000 have been unearthed.

Captain Flimer, on the way to this port, discovered forty cans of the contraband drug and was informed of its importation this morning during a round of 100 miles. Later the chief engineer discovered thirty-two concealed in the engine room and the search is still progressing.

The Popular Couple Will Reside  
in Fashionable Piedmont  
District.

ALAMEDA, June 30.—Dr. William  
Friedman of Oakland, and Mrs. Mamie  
Fleettner, divorcee wife of Charles Fleettner,  
were married at San Jose, yesterday, in  
the presence of a few friends and relatives.

The guests were entertained at a wed-  
ding luncheon, following which Dr. Fried-  
man and his wife departed for an ex-  
tended tour through Southern California.

The guests at the ceremony were Mr.  
and Mrs. Horace P. Brown, of Oakland;

Mr. and Mrs. J. Mervy of Berkeley;

Mr. and Mrs. Al Grigsby of Alameda;

Miss Anna Friedman, final decree  
of divorce from Charles Fleettner,  
over a year ago, and since that time she  
has resided at the home of her parents;

Mr. and Mrs. John C. Johnson, of  
Berkeley; Charles Fleettner married a  
Miss Stone, a society girl of San Fran-  
cisco, about a year ago, and since that  
time has been making his home on the  
estate of one of their friends.

Dr. and Mrs. Friedman have erected an  
attractive home in Piedmont.

UNIVERSITY HAS CLASS  
IN ELEMENTARY SEWING

UNIVERSITY OF CALIFORNIA, June  
30.—Under the department of home  
economics, of which Mrs. Lulu Robbins is  
the head, a class in elementary sewing has  
been formed in the summer school. Miss A. E. McCarthy will be in charge.

In order to accommodate the large en-  
rollment two sessions will be held in the

Emerson school, on the corner of Pied-  
mont avenue and Garber street.

NEW CONCRETE BRIDGE  
NEARING COMPLETION

UNIVERSITY OF CALIFORNIA, June  
30.—The new concrete bridge being  
erected south of East Hall, over Straw-  
berry creek, is nearing completion. The  
wooden forms are being removed and an  
adequate idea of the beauty of the struc-  
ture can be obtained. The bridge is in  
commemoration of the class of 1910 and  
will cost about \$1500.

COLLEGE RECEPTION TO  
BE HELD THIS EVENING

UNIVERSITY OF CALIFORNIA, June  
30.—This evening in Hearst Hall the  
first informal social gathering of the  
summer session will be held. The affair  
has been planned by the summer session  
committee as a means of bringing to-  
gether the faculty and students.

BERKELEY PLAYGROUNDS  
SOON TO BE PAVED

BERKELEY, June 30.—Berkeley's  
new playgrounds, to be paved for winter  
use, according to the decision of the City  
Council, the sum of \$500 was appro-  
priated for the purpose, making a total  
cost of the playgrounds more than \$2000.

On account of the installation of ap-  
paratus, the grounds will not be opened  
July 4 as planned.

REDMOND STAATS NEAR  
DEATH IN DEEP WATER

BERKELEY, June 30.—Redmond C.  
Staats, 30, will be attorney under  
the new administration, had a narrow  
escape from drowning in Smith lake, Plumas  
county, while on a fishing trip, from  
which he returned yesterday. He slipped  
from a boat into deep water, wearing his  
heavy fishing outfit. Chris Osten, who  
accompanied him north, aided in pulling  
him to safety.

"VON ARNOLD" FREED.

SAN FRANCISCO, June 30.—Charles  
Von Arnold, known as the Count Ber-  
nhard, arrested on a charge of alleged  
embezzlement, was released by Police  
Judge Sullivan today, the charges against

GREAT PONY CONTEST ENDS TOMORROW

An exciting close to this unique ad-  
vertising plan of the AMERICAN  
BISCUIT COMPANY.

Tomorrow noon marks the close of

the great Pony Contest of the Ameri-  
can Biscuit Co., which, perhaps, will  
go down in the history of local ad-  
vertising as the greatest contest ever  
put over by a local manufacturer.

The contest has been an exceed-  
ingly interesting one in many ways,  
but the particularly pleasing fact about  
it is that the American Biscuit Co. has,  
from the very beginning, made good  
its word with its little contestants, the  
little ponies being perhaps the prettiest  
ponies ever displayed or offered  
to the public in a contest.

Early next month there will be  
seven delighted youngsters around the  
bay region, happy possessors of one of  
these beautiful little outfits. A very  
unique plan is under way in the mat-  
ter of giving away these ponies, which  
will be pleasing to the public at large  
as well as the contestants, who will  
be the guests of the American Biscuit

### HES EARTH WITH BODY ALMOST COOKED

Cigarette, Match and Naphtha  
Bring About Terrible  
Accident.

PITTSBURG, June 30.—Two hundred and fifty feet above the ground, suspended by a rope that was burning, and his clothing blazing from naphtha and carbon oil, Chris Sinkas, a stache painter, 35 years of age, made his way down, hand under hand, to earth, while a crowd stood horrified at the Westinghouse Electric & Manufacturing Company's plant in East Pittsburg yesterday. He held a rope in his left hand to regulate the speed of his descent, at the same time using his right hand in an effort to beat out the flames.

When Sinkas reached the ground his clothing was almost entirely burned from his body, he was terribly burned about the right hand and arm, chest and face, and his left hand was raw and bleeding from being torn by the rope as he made the swift descent.

Sinkas was painting a smokestack built recently to a new addition to the power house. Before the tar is applied, a mixture of carbon oil and naphtha is applied to the stack to cut off the rust. Sinkas went to the top of the stack. Before starting to work, he lighted a cigarette and tossed the lighted match, he supposed, to the ground. Instead, the match dropped into a bucket of naphtha and oil. An instant later an explosion occurred and Sinkas, ablaze, made his sensational trip down the burning rope.

### UNIVERSITY OF ILLINOIS ALUMNI PLAN PICNIC

The following notice has been sent out to the address of all local alumni, so far as known, of the University of Illinois. Miss Cora J. Hill is chairman of the committee in charge of the picnic. Her address is College of Agriculture, Berkeley, California.

"On Berkeley day, July 10, between the hours of 12 and 2, the Golden Gate Alumni Association of the University of Illinois will serve a picnic luncheon on the University of California campus in honor of Illinois' 100th anniversary. The N.E.A. are cordially invited to come, to bring your family if you have one, and to extend the invitation to other plumb and former students of the U. of I."

The camp-meeting of the Christian and Missionary Alliance at Beulah Park continues with a large attendance and good interest. The first speaker today was C. H. Bright, who conducted the Bible class at 9 o'clock. Rev. F. W. Flint, of Los Angeles preached at 10:30. This afternoon the principal address was given by Rev. A. E. Thompson of Jerusalem. Mr. Thompson is a very strong speaker, with a striking message. Tonight Rev. G. V. Davis of Los Angeles will speak.

The meetings continue daily with a full program each day. Tomorrow afternoon Rev. F. E. Marsh of Bristol, England, will speak, and thereafter will speak daily until the close of the camp-meeting. The meetings are open to the public.

### JOHNSON DETERMINED TO REDISTRICT STATE

SACRAMENTO, June 30.—The tentative plan of Congress not to pass a redistricting bill at this session will not in any way affect a call for a special session of the California legislature, according to Governor Johnson.

The Governor, if he deems it necessary, will call a special session and include in that call the reapportionment of the state into legislative, railroad and equalization districts, and the question of whether he would include congressional districts would be no way change his mind about including the more important legislative districts, he says.

There is a question as to whether California can be redistricted after 1911. Governor Johnson says he has not determined upon the procedure to follow.

### RUN OVER WHILE HE SLEEPS ON PAVEMENT

SAN FRANCISCO, June 30.—George Mills of 1740 Jackson street was run over by a vegetable wagon, as he lay on the pavement at Clay street and Montgomery avenue, at an early hour this morning. The wagon had run over and crushed his leg and inflicted possible internal injuries. The driver passed on unaware that he had struck a man and it was not until a police officer passing discovered Mills' condition that he was given medical treatment.

The conspicuous attraction at the Bell theater this week is Gennaro, "The Eccentric," and his gondolier band of twenty symphonists. This picturesque bandmaster and his unequalled musical organization come to Oakland from phenomenal eastern successes. One is transported from the moon-lit canals of Venice, with the light-hearted Venetian music floating over the water, during the performance of Gennaro and his band, for their spectacle is laid in the grand canal of Venice with its Rialto bridges, which is the inspiration of the artist, the devotion of the musical genius and the studio of the composer of music. Withal the scene is the pinnacle of artis-

GENNARO in characteristic pose.

theatrical grandeur and the most marvelous stage picture ever devised. The twenty musicians are proficient and vigorous in their musical interpretation and with wild gyrations, frantic antics and the prouetting of a mad dancer their leader magnetically sways them to the sweetest tones of their instruments. The eccentric Gennaro has received higher praise from musical critics for his baton calisthenics than Sousa or Creatore. He is a bandmaster of athletic style and his gestures and mannerisms furnish mingled amusement and admiration. His idiosyncrasies are marvels at and his performance is worth going miles to see. Don't miss it. Let the children pack the theater tomorrow.

### SAN MATEO COUNTY AUTO SPEED ORDINANCE INVALID

REDWOOD CITY, June 30.—San Mateo county's automobile speed ordinance is invalid, according to a decision given by Superior Judge George Buck yesterday, who based his decision on the fact that the ordinance was indefinite.

The decision was rendered in the habeas corpus case of J. Shaw, chauffeur for Abner Weed, millionaire lumberman of Siskiyou county, which he represented recently in the State Legislature.

Shaw was arrested six weeks ago and fined \$25 by Justice of the Peace H. W. Tompkin. Weed spent more than \$500 in fighting the case.

## S.S.S. A BLOOD MEDICINE FOR YOUNG OR OLD

The majority of human ailments are caused by impure blood, because weak, polluted blood deprives the system of its necessary strength and disease-resisting powers. Children do not develop perfectly, nor are they strong and robust unless the blood is pure and strong, while old people are afflicted with Rheumatism and other chronic troubles because of a weakened circulation. S.S.S. cures every ailment which comes from impure or diseased blood, it tones up and regulates every portion of the system and creates an abundant supply of nourishing properties with which to build up the blood. S.S.S. is absolutely free from harmful drugs and minerals, and is therefore the purest and safest blood medicine for young or old. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Blood Poison, and all other blood disorders. Book on the blood and any medical advice free. S.S.S. is sold at drug stores.

### EARL BUSSE HELD ON CHARGE OF TAKING BRIBE

#### POPE IS NOT PRESENT AT FEAST OF ST. PETER

LOS ANGELES, June 30.—Earl Busse, formerly a plainclothes policeman, was held for trial on the charge of accepting a bribe after a brief preliminary examination in a Justice court. Busse, who with Dr. John Jones, once a candidate for mayor of Los Angeles, and Thomas White, a special officer, was arrested on accusations of having sought to protect a disorderly resort from the police, was the only witness called in his case. He told of having accepted \$250 from Jones.

#### FORBIDS LANDING OF CASTRO.

ST. THOMAS, D. W. I., June 30.—In accordance with instructions from the government at Copenhagen, all the steamship agents of St. Thomas have been notified that the government forbids the landing on the island of General Cipriano Castro, the deposed President of Venezuela, in the event of his arrival here.

## STRAY SHOT KILLS YOUTH AT PLAY

Boy Killed When Bullet Crashes Through Window Into House.

STOCKTON, Cal., June 30.—A boy 10 years old, youngest son of a blacksmith named Johnson in Jacksonville, Tuolumne county, was accidentally shot and killed while in the family home.

The mother was called out on an errand and left her two boys at home, the deceased sitting on the floor in the kitchen at play. The other boy ran after his mother and said his brother had been shot. The mother found him on the kitchen floor dead with a bullet hole through his head.

The bullet came through a window, evidently a stray shot, struck the boy in the back of his head and came out through an eye. It is not known where the shot came from except that it first crashed through the window.

#### OPIUM SMOKER TRIES TO BRAIN POLICEMAN

In a raid upon an alleged Chinese opium place, Patrolman Arthur Beck narrowly escaped being brained by an irate Oriental, who had been smoking opium and who took Beck for one of his phantom dreams. On seeing Beck the Chinaman had raised a small ebony stool and with this he attempted to knock the policeman down. John Flynn caught him from behind just in time to save his brother officer and slipped the steel handcuffs over his wrists. The two patrolmen had gone to arrest Wong Sing and Gon Who.

#### WOULD BE RETIRED.

SAN FRANCISCO, June 30.—Detective Sergeant Edward Gibson of the local department, one of the best known sleuths on the Pacific coast, has filed an application with the pension board to be retired on half pay.

#### SHRINERS DETERMINED TO LAND CONVENTION

SAN FRANCISCO, June 30.—Armed with 10,000 cartons of California raisins and 10,000 badges of poppy design, 100 local Mystic Shriners will leave San Francisco on July 6 in a special train for the annual convention in Rochester, N. Y. Intent on landing the 1915 convention of the order in San Francisco. The delegates have the support of the Convention League and the exposition company.

The delegates, five in number, from this city, who will take part in the Imperial Council meeting at Rochester, are: William Crocker, Harry Maundrell, Robert Moore, George Filmer and Charles L. Field. The members of the Shriners' Patrol who will also participate in the campaign are: C. J. Wood, captain; C. L. Park, first lieutenant; Herman Wertsch, second lieutenant; D. Abrams, adjutant; F. The Rochester convention opens July 11 for four days.

#### CUMMINS HINTS AT RECIPROCITY 'COME BACK'

WASHINGTON, June 30.—"No self-respecting nation can accept without qualification the Canadian agreement in effect now proposed to us," declared Senator Cummins of Iowa, in replying to his attack on the reciprocity bill in the Senate. "But, mark my words," he said, "the people of this country, with unerring judgment and intelligence, would know who is responsible for putting the farmer into free and unlimited competition in what he sells, while still protecting the things that he buys."

## Ables, Well Backed by Fighting Oaks, Has Easy Time Defeating Hogan's Gang

ABLES AND EIGHT OAKS  
BRING SADNESS TO HAPPYSouthpaw Has Great Line of Deceivers  
and Team Mates Play Major League Ball

By BERT LOWRY.

"Right back at 'em." That was the Wolverton slogan at Freeman Park yesterday afternoon and when the fighting Oaks, ably assisted by Harry Ables, had finished with the hired men of Happicus Hogan, those that wear the uniforms that are a disgrace to baseball, Happy and the striped beauties looked like a wet hen after said wet hen had fallen into the farm yard water trough.

It was an Oakland victory easy, very easy, and a few words will tell why it was an Oakland victory. First of all, Harry Ables was big gun on the firing line and behind him were eight rebels that played baseball to the finest of their ability.

No loading, no shenanigan on the bases or anywhere else and mercy how those fighting Oaks did past that pellet. It was like Hail Mary that was the hope of the Hooligans and he lasted but four innings. The way the Oaks stampeded the curves of the southpaw set him to weeping and moaning and with the opening of the fifth inning when his glove and all, to the club house, while Happy—poor Happy—was trying to lay the blame on somebody else, Outfielder McDonnell, we think.

## OAKS GATHER TWO IN FOURTH.

Oakland went tearing after the pride of the Hooligans in the opening round also in the second, but it was in the fourth that weal and woe came to the Hooligan forces.

Absentee was cut on a pole to Hitt but Pfy drove a screamer right and easily reached the initial sack. Hoffman lifted one over Murrell's head at a mile a minute.

Mr. Maggart, who hit two home runs, alant, paled the ball far out to centerfield between Kane and McDonnell and never stopped running until he pulled up at third. The swat counted as a three bagger, six runs of course, which where Mr. Eddy and Mr. Hoffman landed.

Cushaw gave Stinson a hard chance and Zacher made Brashears histic to get him out. The Oaks were looking mighty fat and sassy on the score board for the fighting Oaks for the way Ables was hurling Vernon had no more chance of reaching the plate than Zink Elberts has of being president of France.

## FINISH OF MR. ROY HITT.

Mr. Hogan sent Mr. Gipe, a young red headed youth with the walk and actions of Christy Mathewson (but that's all) to the line to warm up. But Mr. Hitt told him that these three bunglers were only a flash and that he would show the Oaks something in the fourth.

His intentions were good, but he failed for the Oaks showed him something and then Hogan showed him the way to the club house.

Mr. Wolverton banged a slant through the infield like a bullet and let us pause to wonder if the other players played like a colt and the other followed had to pause and take notice on more than one occasion.

Walter laid down a handsome bunt and was at second. On a long line to center by Bunny Pearce the cap hiked to the plate.

Ables was wise and refused to take a walk but held his bat straight out. Pfy gathered another bunt and so did Hoffman and Bunny registered.

Maggart hit his screamer to Burrell and dinged it. Both those fellows have given the Oaks two more runs. Ables took up the burdens and waded through the rest of the game without damage. He can thank the fine fielding he had him that the Fighting Oaks didn't get a few more tallies.

## HOOLIGANS GET FIRST HIT.

The honor of getting the first single on the Hooligan side fell to McDonnell. In the seventh inning and it was a Jim dandy to leftfield in the eighth inning. Jim beat an inch and a half by the fraction of a hair which was the second bungle of the team. That shows how classy was the Mr. Ables shooting that day.

Up to the eighth inning there wasn't a dull moment to the game, nor was the umpire in any kind of trouble. Then Ables landed Patterson on three pretty balls and after a short rest Ables hurled his bat to the ground and from the movements of his lips was using some of the same kind of language as on the day before.

Hilly didn't like what Pat was saying so thumbed him out of the game. Happy Hogan took his place but Happy only got to the end of last week they decided there would have to be an operation.

MORE EASY PICKINGS  
FOR "BEGGAR" SAM  
LANGFORD

NEW YORK, June 30.—Sam Langford won easily from Jack Fitzgerald of Philadelphia in the fifth round of a bout which was suspended because of a case of cancer. He was operated on yesterday afternoon and a few hours later was seen in court and insisting he was going to go well. He is survived by his widow and his seven-year-old daughter. Mrs. Johnson became seriously ill on June 17. On the following day his family physician advised her an operation would probably be fatal, but he had to sit down while performing the trick.

Carlisle was worse off than expected after his unavoidable collision with Monte Pfy in Wednesday's game and was forced to play the game from the bench and limited to center and McDonnell.

Pipe took up the burdens after Roy Hitt, but he was forced to have in the fifth inning and the youngster cut loose with a lot of speed and handled himself as if he might be a good one after a while.

Somebody tossed a lemon in on the field just before the opening of the game and Happy Hogan picked it up and said, "I'm sorry, but I have to keep it as we need it after the game, and he did.

Patterson was thumped out of the game in the eighth inning for racking at the umpire. He found fault with a perfectly called strike and ragged long and loud. What he expected to do was to call it a game at that stage of the game we fail to see. But, then, it is always tough on a boxer to have a pitcher show him up.

Wares played another nifty game at short and tried hard to get Kane on the pole or his in the eighth inning. Wares' match was 6-1, 6-2.

## MINORS REPORT TO REDS.

CINCINNATI, June 30.—Ralph Aldama and Armande Marsen, Cuban players, who were purchased from the New York Yankees by the Cincinnati Nationals, reported for duty yesterday. They are the first Cuban players to be signed by a major league club.

## BROWN-THOMPSON MATCH IS OFF.

CHICAGO, June 30.—The ten round fight between Knockout Brown of Chicago and Tom Thompson of Syracuse, Ill., scheduled to be held at Grey, Indiana, July 4, was called off today.

SACRAMENTO, June 30.—Inspired by their win yesterday, the Seniors again crashed through the Senators today, smashing the ball to all corners of the lot, while the Senators were unable to connect with Tom Stanton's stick. Danzig belted the only member of the home guard to hit, hitting hold of the ball in the fourth inning and knocking the sphere over the right field roof home run.

Just previous to this his home drive Danzig fouled the ball over the grandstand, the sphere crashing through a passing car window and splintering glass, causing passengers.

Paternal opposition to the Seniors for six innings was given a severe lacing, nine hits and six runs being taken off his delivery in six innings.

Fitzgerald, who repented Fitzgerald, was in good form.

Peckinpah hit for two dazzling triples that drive in two runs, and Kuhn seized the widow opportunity.

# ASSESSMENTS FOR OPENING OF STREETS

## BOMB THROWN IN PROCESSION OF EUCHARISTS

Property Owners Must Pay \$575,008 to Improve the Thoroughfare.

### DAMAGES AND EXPENSE OF ESTIMATION INCLUDED

Washington and Jefferson to Be Cut Through the City.

Assessments in the districts described for the opening of Washington and Jefferson streets, northern into San Pablo avenue, were fixed by the commissioners appointed for the districts, the total assessments for the two street openings mounting up to \$575,008.01. This will be levied upon the property owners within the two districts to pay the expenses of estimating the assessment, and to pay the damages to property owners whose realty is taken or damaged.

It is probable that a protest will be raised by the owners of property against whom assessment is levied for the opening of Jefferson street. The money to be gained by this tax will be used for the opening of the street, and the expense of making and paving the street will be assessed later upon the property owners putting on the opening. The city council of the street commissioners has been filed with the city clerk and will be taken under consideration and probably given favorable action by the new city council.

### \$334,368 ASSESSMENT.

The assessment levied against the property owners for the Jefferson street opening is \$334,368.50. This is made up of \$227,550 damages awarded to property owners whose land and improvements will be taken or damaged to open the street, and \$66,818.50 for the expenses of the commission in estimating the individual assessments and damages, the employment of expert counsel and ready experts.

The opening of Jefferson street is from Seventeenth street to San Pablo avenue. The assessment district which will pay the tax levy extends 150 feet east and west of Jefferson street from First street to San Pablo, thence northward 150 feet each side of San Pablo to Thirty-sixth street.

Among the owners whose property will be taken to cut the street through to San Pablo and to whom damages are awarded in the same amount, \$227,550, are the Farnham estate, Bill Woodward, Letta K. Elchon, J. D. Lauping, Elizabeth Atkinson, Thomas and Mary Jones, Theodore Gier, A. Moore and Carrie and Frank Potter.

The Washington street opening north to San Pablo avenue, for which the building and land of the Dunn estate at San Pablo avenue and Fifteenth street east to San Pablo, is allowed as damages to the Dunn estate for land and improvements taken and damaged. The total assessment is \$240,638.51 for Washington street, the district upon which the tax is to be levied to raise this sum being as follows: From First street north to Eighth, bounded east and west by Broadway and Clay and from Eighth street north to Eleventh, bounded on east and west by Broadway and Grove.

# BOMB THROWN IN TIDE LAND LEASES PROCESSION OF EUCHARISTS

Madrid Scene of Disorder During the Parade of Catholics.

### OFFICIAL CENSOR STOPS NEWS DISPATCHES

Women Faint and Are Trod Upon During Excitement; Sixty Hurt.

**MADRID**, June 30.—The government censor stopped all news dispatches filed with the telegraph companies last night, which described disorders in connection with the great Eucharist procession. It is estimated that sixty persons received more or less severe bruises in a street panic following the explosion of a bomb in Calle Bordeau, near the corner of Calle Mayor at the moment that the parade was passing through the latter thoroughfare.

No one was injured directly by the bomb, but the crowd massed on the sidewalk, who read the prediction of trouble in the morning editions of the Republican papers, cried out in alarm and started to run.

### WOMEN FAINT.

In the resulting crush women fainted and, sinking to the pavement, were trodden upon. The police acted energetically and eventually restored order, and the procession moved on. One arrest was made.

The organizers of the demonstration had warned those who participated to march in silence lest they provoke a hostile demonstration on the part of the Republicans and anti-clericals who looked on.

The press units today in deplored the bomb incident and deplored the parades and the anti-clericals on their correct attitude in preventing conflicts.

# FAMOUS ARTIST CALLED BY DEATH

Paul de Longpre Dies Amid the Flowers He Loved So Well.

**LOS ANGELES**, June 30.—Paul de Longpre, the world-famous painter of flowers, died last night at his mansion in Hollywood. He was 54 years old and had been in delicate health practically all his life, and for months the end had been expected at any hour.

De Longpre was a native of France and the pupil of his uncle of the same name, perhaps even more famed as a flower and fan artist. He came to this country twenty-three years ago and to California twelve years ago, that he might find blossoms nearest perfection.

He was not a man of wealth and his palatial home, in the midst of a flower garden of wonderful beauty, left in his hands was the major portion of his worldly possessions. Hundreds of thousands of visitors from all over the globe have been attracted to it. His home was nearly always open to the public.

The dead painter leaves a widow and three daughters. The eldest is married and lives in the East; Miss Blanche is teacher of French in a local girls' school and the third is at home.

### JAPAN AFTER NAVAL BASE

VICTORIA, B. C., June 30.—The steamer Panama Maru brought word of a report current in Tokyo that Japan will create a naval base at the Bonin Islands, far out in the Pacific. The Asahi says that the need of this new base in the Pacific was clearly demonstrated by the Russo-Japanese war, and that the naval minister, Admiral Sato, and Admiral Uryu, commander of the Yokosuka naval station, made secret trips in April to the archipelago to make the necessary investigation.

## RIVER BOAT SINKS

## DURING HIGH WIND

"Juliette" Runs Ashore On the Chickens, Near Point Orient.

RICHMOND, June 30.—The river boat Juliette, plying between the bay ports and Sausalito and carrying fruit and vegetables, ran ashore on a small rocky reef known as the Chickens, near Point Orient, during the gale of night yesterday last. The boat was badly rammed in the bow.

When the boat became stranded the crew abandoned her and notified the owners in San Francisco. The crew were sent to the scene with a barge, to which the cargo of potatoes was transferred. All efforts to move the disabled vessel were futile, and she gradually sank lower into the water.

The following constitution and by-laws committee was appointed: Miss Nelda Oakes, '09, chairman, Elbert Thurman, '10, and Miss Maud Russell, '11.

The resolution drawn up by O. R. Morgan, recommending Mrs. H. J. Schute as English teacher in the high school was heartily endorsed. Hani Korkelj was appointed personal messenger to deliver the resolution to the clerk of the board of high school trustees.
